NAZCA 3L GORE-TEX PRO®

JACKET

PRICE: \$ 1,499.99

Description

A new addition to Alpinestars' All Terra line, the Nazca GORE-TEX PRO Jacket is built for serious adventure riding. Designed for durability, abrasion resistance, and climate versatility, it adapts easily to demanding on- and off-road conditions. Its 3-layer laminated GORE-TEX PRO membrane, Superfabric® reinforcements, large direct ventilation zones, and central airflow panel ensure rugged protection and all-day comfort. A streamlined ergonomic design with minimal internal bulk and an advanced 4-point volume adjustment system delivers a tailored fit and unrestricted mobility. With ultra-flexible Nucleon PLASMA Pro Level 2 armor and Tech-Air® compatibility, the Nazca offers high-level protection in any weather or terrain. For riders seeking premium performance and adaptability, the Nazca GORE-TEX PRO is Alpinestars' top-tier adventure jacket made to go the distance.

Key Features

Adventure-Ready Durability: Engineered to withstand extreme riding conditions with excellent abrasion resistance.

GORE-TEX PRO 3L Construction: Fully waterproof, windproof, and breathable with long-lasting performance.

Stretch GORE-TEX Panels: Enhance fit, mobility, and comfort while maintaining full weather protection.

Superfabric® Reinforcements: High-abrasion protection at shoulders, biceps, and elbows.

Advanced Ventilation System: Six front intake vents and four rear exhaust vents provide optimal airflow seated or standing.

Superairflow Front Panel: Magnetic full-length venting for continuous cooling when conditions heat up.

4-Point Ergonomic Adjustment: Allows refined fit and airflow control for comfort on long rides.

Premium Protection: CE Level 2 Nucleon PLASMA Pro armor (shoulders & elbows) + back protector insert included.

Warranty: GORE-TEX "Guaranteed to Keep You Dry" lifetime waterproof guarantee and Alpinestars 5-year extended warranty (with registration).

Construction

The GORE-TEX PRO 3L laminated membrane and stretch 3L panels provide full waterproof, windproof, and breathable performance with year-round durability. Superfabric® panels reinforce key impact zones for abrasion and cut resistance. The direct ventilation system—with large arm intake vents, rear exhaust, and the Superairflow magnetic front panel—maintains cooling airflow when needed. A minimal internal structure reduces weight and increases mobility, ideal for layering with Tech-Air® Off-Road or thermal systems. Two waterproof hand pockets, two waterproof chest pockets, and internal storage keep essentials secure. Bonded reflective detailing improves visibility in low light.

Protection

Tech-Air® Ready: Compatible with Tech-Air® Off-Road, Tech-Air® 5, Tech-Air® 5 PLASMA, and Tech-Air® 7x.

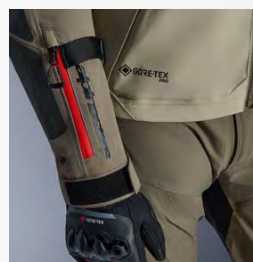

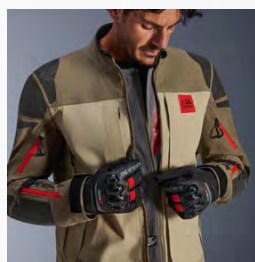

Impact Armor: Category II EN 1621-1:2012 Level 2 Nucleon PLASMA Pro armor at shoulders and elbows.

Garment Certification: Fully CE-certified to EN17092-3:2020 AA class.

NAZCA 3L GORE-TEX PRO®

PANTS

PRICE: \$ 1,099.99

Description

The Nazca GORE-TEX PRO Pants are a new addition to Alpinestars' All Terra Line, built for serious adventure riding. Engineered for durability, abrasion resistance, and climate versatility, they adapt to demanding on- and off-road conditions. With a 3-layer laminated GORE-TEX PRO membrane, Superfabric® reinforcements, and advanced ventilation, the Nazca Pants deliver reliable all-weather protection and comfort. Designed for mobility and a tailored adventure fit, they include a magnetic buckle closure, calf volume adjusters, water-resistant cargo pockets, and knee brace compatibility. Equipped with Nucleon PLASMA Pro CE Level 2 knee armor and Nucleon Bio-Flex hip armor, they provide effective impact protection. Built for rugged performance and top-level protection in any environment, the Nazca GORE-TEX PRO Pants ensure you're ready for the ride.

Key Features

GORE-TEX PRO 3L Laminated Construction: Fully waterproof, windproof, and breathable for long-lasting all-weather protection.

Superfabric® Reinforcements: High-abrasion resistance in key impact areas for enhanced durability.

Advanced Ventilation: Large zippered thigh intakes and rear exhaust vents provide cooling airflow on and off the bike.

Ergonomic Fit & Mobility: Stretch GORE-TEX panels and minimal internal bulk ensure comfort and flexibility for active riding.

Adventure-Ready Functionality: Magnetic buckle closure, calf volume adjusters, leather inner knees, water-resistant cargo pockets, and knee brace compatibility.

Integrated Impact Protection: CE Level 2 Nucleon PLASMA Pro knee armor + Level 1 Nucleon Bio-Flex hip armor included.

Construction

The GORE-TEX PRO 3L laminated membrane provides year-round waterproof, windproof, and breathable performance. The PFAS-free membrane delivers >28Kmm waterproof protection with a RET value of <20m²Pa/W for comfort across varied climates. Stretch GORE-TEX panels at key mobility zones (inner thighs, rear knees, back yoke) improve flexibility and fit. Superfabric® reinforcements at the knees and shins enhance abrasion resistance. A direct ventilation system with large thigh intakes and rear exhaust vents maintains airflow. The lightweight internal design improves rider mobility and comfort, while calf adjusters and knee brace compatibility ensure a secure personalized fit. Two water-resistant cargo pockets offer practical storage. Bonded reflective detailing increases visibility in low-light conditions.

Protection

Adjustable Nucleon PLASMA Pro CE Level 2 knee armor with 3-position internal pockets for fit customization.

Nucleon Bio-Flex CE Level 1 hip armor included.

Nucleon PLASMA Pro armor is anatomically designed using body mapping technology for optimal flexibility and coverage.

Fully CE-certified riding garment to EN 1621-1:2012 (armor) and EN17092-3:2020 (AA class).

ST-7 2L GORE-TEX®

JACKET

PRICE: \$ 1,099.99

Designed for riders looking for the premium benefits of the Gore-Tex laminated construction, and Alpinestars engineered ergonomic mobility, the ST-7 2L Gore-Tex Jacket is a lighter weight jacket, targeting less intensive use in terms of hard off-road adventure. The ST-7 has a pattern with a specifically tailored fit designed for natural mobility on the bike.

The ST-7 jacket features a fully waterproof and breathable laminated Gore-Tex main shell which is durable, lightweight, and flexible. The chassis provides a comfort fit with a pre-curved pattern and large stretch panels on the chest, back, and underarms for excellent freedom of movement. The outer shell has ergonomic and waterproof cargo pockets providing comfort even when in the riding position. In addition, the shell sports a straight collar with direct closure and shock cord adjustment to seal the area around the neck in case of rain or colder weather, as well as direct ventilation panels on the chest, and zippered openings on the arms to provide increased ventilation.

Internally, the Tech-Air® Ready, ST-7 2L Gore-Tex Jacket has CE Level 2 rated Nucleon Flex Pro elbow and shoulder armor, plus a removable thermal liner consisting of 100g torso insulation with 60g insulation on the arms – excellent for dialing in the appropriate amount of year-round climate control for the rider based on the riding conditions.

Tech-Air® Ready

2L Laminated GORE-TEX chassis for 100% guaranteed waterproof and breathable performance.

Direct ventilation panels and detachable thermal liner.

ST-7 2L GORE-TEX

PANTS

PRICE: \$ 929.99

Complementing the ST-7 2L Gore-Tex jacket are the ST-7 2L Gore-Tex pants, the perfect option for riders looking for all the premium benefits of the Gore-Tex laminated construction, and Alpinestars engineered ergonomic mobility, but looking for a lighter weight option, targeting less intensive hard off-road adventure use. Completing the four-season ensemble, and like the jacket, the ST-7 2L Gore-Tex pants also feature a laminated 100% waterproof and breathable comfort fit with CE Level 2 rated Nucleon Flex Pro knee armor with an adjustment system for custom positioning and movement comfort. The main chassis construction is made from a blend of durable, lightweight, and flexible materials with polyfabric reinforcements on the inner legs, and tech stretch material in the crotch and back yoke.

The ST-7 Pants have large ergonomic cargo pockets with zippered direct ventilation on the thighs, and the waist features a pre-curved design with a magnetic buckle closure. Internally, there is a removable thermal liner with 80g insulation on the thighs and seat, 60g insulation on the lower legs, and stretch material on the knees and back yoke. The adaptable, all-weather four-season ST-7 2L Gore-Tex AA-rated pants are the perfect choice for adventure touring, and a perfect outfit when paired with the ST-7 2L Gore-Tex Jacket.

According to European statutory law the CE mark is a conformity requirement for the marketing of this product. The following standards apply to this product:

HALO PRO DRYSTAR® XF LAMINATED JACKET

PRICE: \$ 999.99

Description

The Halo PRO Drystar®XF is a premium adventure jacket built for versatile performance across changing weather and terrain. Its 3-layer stretch Drystar®XF laminated shell delivers waterproof protection, breathability, and excellent mobility. A modular ventilation system allows the jacket to quickly convert for warm-weather riding, with asymmetrical front vent panels and removable outer sleeves that reveal full mesh arms for maximum airflow while still maintaining armor coverage. Equipped with Nucleon Flex Pro CE Level 2 shoulder and elbow armor and Tech-Air® compatibility, the Halo PRO Drystar®XF ensures high-level protection and adaptability for any adventure.

Key Features

All-Terrain Versatility: Designed for both on- and off-road riding with a full-stretch chassis for mobility and comfort.

3L Drystar®XF Laminated Shell: Durable, waterproof, and breathable performance for varied climates.

Modular Ventilation: Asymmetrical chest and back venting plus removable sleeves provide rapid airflow conversion for hot conditions.

Removable Sleeves: Outer sleeves zip off and store in the waterproof back pocket for true warm-weather adaptability.

Two-Way Waterproof Vent Zippers: YKK® AQUASEAL® front panel zippers offer sealed weather protection or adjustable airflow.

Impact Protection: CE Level 2 Nucleon Flex Pro shoulder & elbow armor for flexible, breathable impact performance.

Construction

Built for active movement, the Halo PRO is Tech-Air® Ready, pairing seamlessly with Alpinestars' Airbag Systems for complete upper-body protection. The 3L Stretch Drystar®XF shell provides >15Kmm waterproofing and high breathability. Direct ventilation openings on the chest and back—combined with the removable sleeve system—deliver strong airflow when the temperature rises. PU reinforcements at shoulders and elbows and 3L ripstop across high-wear zones enhance durability. Waterproof YKK® AQUASEAL® zippers ensure secure climate sealing. Ergonomic adjusters at the biceps, waist, and wrists refine fit, and hydration-hose routing supports long-distance riding. Multiple waterproof and water-resistant pockets, including a large rear compartment, provide practical storage.

Protection

Tech-Air® Ready: Compatible with Tech-Air® Off-Road, Tech-Air® 5, Tech-Air® 5 PLASMA, and Tech-Air® 7X.

CE Level 2 Nucleon Flex Pro armor at shoulders and elbows.

CE Certified Garment to EN17092-3:2020 AA (with sleeves) / A (without sleeves).

HALO PRO DRYSTAR® XF LAMINATED PANTS

PRICE: \$ 699.99

Description

The Halo PRO Drystar®XF Pants are built for high-performance adventure riding, delivering versatility across all terrains and weather conditions. Constructed with a 3-layer stretch Drystar®XF laminated shell, they offer premium waterproof protection, breathability, and unrestricted mobility. Large thigh vents open to mesh panels for direct airflow in hot conditions, ensuring comfort without compromising protection. Equipped with CE Level 2 Nucleon Flex Pro knee armor and CE Level 1 Bio-Flex hip armor, the Halo PRO Pants provide advanced impact protection. Waterproof two-way YKK® AQUASEAL® zippers on the main opening and thigh vents ensure reliable sealing in harsh weather.

Key Features

All-Terrain Versatility: Stretch chassis supports mobility and comfort on and off-road.

3L Stretch Drystar®XF Shell: Durable, waterproof, and breathable for year-round use.

Direct Ventilation: Thigh vents unzip to reveal mesh panels for cooling airflow.

Rider-Focused Fit: Adjustable waist with magnetic buckle closure, calf volume adjusters, and water-resistant cargo pockets for function and storage.

Integrated Protection: CE Level 2 Nucleon Flex Pro knee armor + CE Level 1 Nucleon Bio-Flex hip armor for flexible, ventilated impact performance.

Construction

The Halo PRO Pants are engineered for movement, durability, and comfort during long days on the bike. The 3L Stretch Drystar®XF laminated shell provides >15Kmm waterproof protection and outstanding breathability (Inverted Cup >15K g/m²/24hr). Large thigh ventilation panels promote strong airflow in warm weather. PU reinforcements at the knees, 3L ripstop in the seat, and Dobby-reinforced nylon at the shins and cuffs increase long-term durability. Ergonomic goat leather inner knee panels enhance grip and wear resistance. Adjustable waist and zippered calf volume adjusters ensure compatibility with adventure and MX boots. Two water-resistant cargo pockets offer practical storage.

Protection

CE Level 2 Nucleon Flex Pro Knee Armor, adjustable with 3-position internal pockets.

CE Level 1 Nucleon Bio-Flex Hip Armor included.

Fully CE-certified riding garment to EN17092-3:2020, AA Class.

HALO DRYSTAR®

JACKET

PRICE: \$ 699.99

Description:

A multi-season adventure touring jacket with an innovative technical outer jacket, the Halo Drystar® Jacket can be adapted to the weather conditions; the asymmetric front construction features a very wide vent panel, which combined with the large opening vent panel on the back, delivers optimum levels of airflow. This can be enhanced ever further, thanks to the removable sleeve shell which exposes the full mesh sleeves for unrivalled airflow in the warmest environments, while still delivering full protection against impacts. This jacket is Tech-Air® ready and can accommodate the Tech-Air® 5 Airbag System, for complete upper body protection.

Construction :

- Soft collar construction for enhanced rider comfort.
- Stretch wrist for an optimized fit.
- Multi-adjustment arms for a tailored fit.
- Left and right removable sleeves are identified with a label for ease of use when connecting them back to the jacket.

Protection :

- Soft collar construction for enhanced rider comfort.
- Stretch wrist for an optimized fit.
- Multi-adjustment arms for a tailored fit.
- Left and right removable sleeves are identified with a label for ease of use when connecting them back to the jacket.

Key Features :

- Fully foldable full mesh front and back ventilation panel bridges efficiently distribute airflow, while the removable sleeve shell allows the jacket to be adapted to suit the weather conditions.
- The packable, waterproof and breathable Drystar® rain jacket delivers guaranteed waterproofing and breathability without excessive material bulk, thus preventing any waterlogging, and can be worn inside the jacket or over the jacket for the ultimate in climate control, and can also be worn as a standalone jacket. The jacket can be stored in the back pocket or in the integrated pocket.
- Hand pockets, lower pocket, front pocket and side cargo pockets for real-world practicality.
- Mesh back pocket for easy, practical and quick use.
- Integrated pocket allows the Drystar® liner to be folded back on itself.
- Removable chest protector pocket for safe storage of valuables.
- PU shoulder reinforcement for additional strength and durability.
- Internal waist belt on main shell for an optimized fit.
- Fluo yellow color inserts on Drystar® liner.

AMT-8 STRETCH DRYSTAR® XF JACKET

PRICE: \$ 799.99

DESCRIPTION

A new addition to the AMT (Alpinestars Motion Technology) line, the AMT-8 Stretch Drystar®XF Jacket is engineered to deliver the ultimate level of comfort during long range adventure riding activities. Like the other AMT jackets in the range, the AMT-8 has an ACTIVE fit, ergonomically designed to provide maximum range of motion and freedom of movement, guaranteeing premium comfort and protection, while at the same time offering a high level of ventilation, and breathability. With its strategically positioned hyperflow ventilation ports and its Drystar®XF waterproof stretch liner, the AMT-8 Jacket is designed to provide riders cooling ventilation in the areas that need it most and keep them dry in harsh weather conditions.

KEY FEATURES:

Highly breathable, 100% stretch performance jacket for unbeatable flexibility and premium rider comfort.

ACTIVE touring fit, with pre-curved arms, ergonomic elbows, and a contoured bottom edge for superior rider comfort.

Long zippered, ventilation ports on the chest and arms provide a high level of cooling airflow when open, as they act as scoops to capture air from the incoming airstream. The AMT-8 Jacket's hyperflow venting system provides an increased surface area of air exchange, with the side vents on the chest held open via their internal shock cord retention system.

Back exhaust has a shingle design with the back vent always remaining open to exhaust the incoming air from the front ventilation ports, allowing for a constant cross flow of air, with airflow in on the front and out through the back exhaust.

The waterproof Drystar®XF stretch liner is highly versatile and may be used as an inner windproof layer if worn under the jacket or as a WP layer to protect from the rain when worn over the jacket. When not in use, the liner can be easily packed up in its built-in bag, and conveniently stored in the AMT-8's rear utility pocket.

CONSTRUCTION

Highly breathable, total stretch performance jacket offers unmatched flexibility and premium comfort.

New 3D ergonomic pattern designed for improved flexibility and freedom of movement. Featuring pre-curved arms, ergonomic elbows, the AMT-8 has an ACTIVE touring fit, with a shortened, center front zipper to minimize zipper bowing and a contoured bottom edge for superior comfort when riding on the bike.

Long zippered ventilation ports on the chest and arms act as air scoops, providing high levels of cooling airflow as the Jacket's hyperflow venting system offers the maximum level of air exchange and ventilation when the side vents are held open by the internal shock cord system.

Back exhaust features a shingle design where the back vent always remains open to ensure continuous air exhaust, with airflow in on the front and out of the back, maintaining a constant cross flow and offering the rider premium ventilation.

Versatile Drystar®XF stretch liner can be used as an inner windproof layer or an outer waterproof layer, and easily packs into its built-in bag for storage in the rear utility pocket.

Minimalistic liner for enhanced rider comfort with internal pockets for a divided chest protector and a back protector pocket with 3D mesh channeling for improved breathability and comfort, CE level chest and back protectors are available as an optional accessory.

New storm collar design with bungee adjuster to prevent water ingress, with integrated chin guard for unbeatable fit and comfort.

Adjustment on forearms is designed to keep the sleeves adjusted and the protectors securely in place. Outdoors-inspired cuffs with slim design offer increased coverage and a good fit with both short and long gloves, wrist regulation provided by hook and loop Hypalon cuff adjusters.

Drawstring adjustable waist for an optimized fit.

Waterproof inner pocket for the safe and secure storage of valuables.

Ergonomic front cargo pockets with a reverse Rally-inspired design allows for fast and comfortable access to the pockets for enhanced utility and practicality.

Rear utility cargo pocket with double entry and double capacity on lower back ideal for storing the WP Drystar®XF liner (which is self-packable into a small built-in bag for easy storage), and other personal items.

Zippered waist connector for a secure connection with Alpinestars AMT-8 Drystar®XF Pants.

PROTECTION

Tech-Air® Ready and compatible with Tech-Air® 7x.

Category II EN 1621-1:2012 Level 2 Nucleon Plasma Pro armor on the shoulders and elbows for effective impact protection.

According to European statutory law the CE mark is a conformity requirement for the marketing of this product. The following standards apply:

Fully CE-certified riding garment to CE – Category II EN17092-3: 2020 standard – AA Class.

AMT-8 STRETCH DRYSTAR® XF PANTS

PRICE: \$ 599.99

DESCRIPTION

A new addition to the AMT (Alpinestars Motion Technology) line, the AMT-8 Stretch Drystar®XF Pants are engineered to deliver the ultimate level of comfort during long range adventure riding activities. Like the other products in the range, the AMT-8 Pants have an ACTIVE fit, ergonomically designed to provide freedom of movement, guaranteeing premium comfort and protection, while at the same time offering a high level of ventilation, and breathability. With its strategically positioned hyperflow ventilation ports and its Drystar®XF waterproof stretch liner, the AMT-8 Pants are designed to provide riders cooling ventilation in the areas that need it most and keep riders dry in harsh weather conditions.

KEY FEATURES

Highly breathable, 100% stretch performance pants for unbeatable flexibility and premium rider comfort.

ACTIVE touring fit, with pre-curved legs and ergonomic knees for superior rider comfort.

Long zippered, ventilation ports on the thighs provide a high level of cooling airflow when open, as they act as scoops to capture the air from the incoming airstream. The AMT-8 Pants' hyperflow venting system provides an increased surface area of air exchange, with the side vents on the thighs held open via their internal shock cord retention system.

The waterproof Drystar®XF stretch liner is highly versatile and may be used as an inner windproof layer if worn under the pants, or as a WP layer to protect from the rain when worn over the pants. When not in use, the liner can be easily packed in its built-in bag and conveniently stowed in the AMT-8 Jacket's rear utility pocket.

CONSTRUCTION

Highly breathable, stretchable pants deliver unmatched flexibility and rider comfort.

Designed with an ACTIVE touring fit, the pants have pre-curved legs and ergonomic knees for enhanced comfort.

Engineered to offer excellent levels of cooling airflow, the long, zippered ventilation ports when opened with the internal bungee cord retention system ensure maximum constant airflow thanks to the pants' hyperflow venting system.

Versatile waterproof Drystar®XF stretch liner functions as a windproof layer under the pants or a rainproof layer over them; easily packable in its built-in bag for storage in the AMT-8 Jacket's rear pocket.

Ergonomic cargo pockets with a reverse Rally-inspired design allows for fast and comfortable access to the pockets by either hand for enhanced utility as well as overall practicality.

New waist connection design for a secure connection with the Alpinestars AMT-8 Jacket, making it invisible when not used.

Internal goat leather knee panels provide the maximum level of contact feel with the motorcycle and unbeatable durability, their contoured shape minimizes excess bulk.

The stretch accordion on the calf allows the pants to be worn inside or over the boot, with all types of boots and riding shoes.

Long zippered leg entry for ease of use.

Seamless, stretch crotch construction offers improved comfort and flexibility.

Adjustable, magnetic waist closure buckle for an optimized and secure fit.

Fixed liner with a comfort fabric on the back of the waistband.

PROTECTION

Adjustable Nucleon Plasma Pro Level 2 knee armor for high levels of impact protection, with internal knee armor pockets in the inner lining; Nucleon Flex Plus Level 1 protection on the hips, both hip and knee protectors come already installed in the pants.

The Nucleon Plasma Pro Knee Protectors have been developed using state-of-the-art body mapping technology to achieve the optimum protection coverage to flexibility ratio and is anatomically engineered for use in Alpinestars' Touring Pants.

Category II EN 1621-1:2012 Level 2 Nucleon Plasma Pro armor on the knees and Level 1 Nucleon Flex Plus on the hips for effective impact protection.

According to European statutory law the CE mark is a conformity requirement for the marketing of this product. The following standards apply:

Fully CE-certified riding garment to CE – Category II EN17092-3: 2020 standard – AA Class.

MONTEIRA DRYSTAR® XF

JACKET

PRICE: \$ 749.99

The Monteiro Drystar®XF Jacket has been engineered to ensure that adventure touring riders travel fully protected and in optimal comfort in all climates and weather conditions. With a focus on the jacket's overall practicality, the design team added a new level of detail and ergonomic designs that incorporate intuitive and functional features including closures, vents and pockets, as well as magnetic zippers, magnetic connectors, liner connection, closure systems, wrists and collar to make sure that they were thoughtfully designed with attention to ease of access and the real-life needs of the adventure touring rider.

When it comes to the jacket's construction, the multi-season Monteiro Drystar®XF Jacket has been engineered to deliver optimal protection, weather performance and comfort. A new approach in advanced riding all-weather protective apparel, the 2-layer laminated Drystar®XF waterproof membrane provides superior breathability in wet and dry conditions, offering optimal vapor management, and is comfortable, light weight and fast drying. The Monteiro Drystar®XF Jacket is laminated to ensure touring riders can enjoy long trips in comfort especially in bad weather conditions and preventing the gear from getting heavy and soggy. Fast drying after the rain, the laminated membrane has opening vents on the outer shell to channel the air directly through the inside of the jacket.

The Monteiro jacket has a collar closure with an internal Velcro and an adjustable self-centering snap closure for an optimized fit to allow riders to keep the collar open in warm weather conditions. Ergonomically designed adjustable cuffs and quick wrist closure and regulation system for ease of use with gloved hands. Significant research and development culminated in the creation of the Monteiro, a jacket that features top performance, provides exceptional comfort, and offers rugged durability for any ride or adventure.

Featuring an engineered fit designed to deliver the highest level of active upper body protection, the Monteiro Drystar®XF Jacket is Tech-Air® Ready.

DWR (Durable Water Repellent) treatment for additional wet-weather performance.

Wide direct ventilation ports with 'quick hand' activation design for effective climate control on the go in any conditions.

Level 2 CE Nucleon Flex Pro shoulder and elbow armor for effective protection against impacts.

When it comes to protection, the jacket incorporates a reinforced outer shell for long life durability.

Laminated 2L 450D hard shell construction for enhanced durability.

600D Dobby woven reinforcements for additional durability in key areas.

Extensive stretch inserts for optimum freedom of movement and an enhanced fit. Detachable 80g full sleeve thermal liner allows the jacket to be configured to the conditions.

Direct ventilation panel can be operated with one hand for fast and effective climate control on the go.

Two front zippered pockets, two chest pockets an inner waterproof document pocket and two inner pockets on the liner for safe and secure storage of valuables.

The jacket has a lower hem shock cord for an optimized fit.

According to European statutory law the CE mark is a conformity requirement for the marketing of this product. The following standards apply: Fully CEcertified riding garment to CE – Category II EN17092 standards – AA Class.

PANTS

PRICE: \$549.99

The multi-season Monteiro Drystar®XF Pants are engineered to deliver optimal protection, weather performance and comfort, and utilize Alpinestars new laminated 2L Drystar®XF technical waterproof and highly breathable membrane, a detachable thermal liner, and large direct ventilation panels on the thigh for effective all-weather performance. Featuring a 450D poly-fabric construction with strategically positioned 600D reinforcements for enhanced durability, these pants are equipped with Nucleon Flex Pro knee armor for effective protection against impacts. The pants are designed with a tailored, ergonomic fit to accommodate all riding movements.

The laminated technical Drystar®XF membrane provides superior breathability for the pants and 100% waterproof performance. The membrane is easily packable and fast drying.

DWR (Durable Water Repellent) treatment for additional wet-weather performance.

Wide direct ventilation ports with 'quick hand' activation design for effective climate control on the go in any conditions.

The pants incorporate large, wide direct ventilation panels on the thighs with a 'quick hand' activation design for effective climate control on the go, as well as extensive stretch inserts for optimum freedom of movement and an enhanced fit.

Magnetic buckle closure for quick and secure closure, with adjustability.

450D laminated hard shell construction for enhanced durability. 600D Dobby woven reinforcements for additional durability in key areas.

Comprehensive stretch inserts for optimum freedom of movement and an enhanced fit.

Detachable 80g thermal liner allows the pants to be configured to the conditions.

Direct ventilation panel can be operated with one hand for fast and effective climate control on the go.

Two cargo pockets and two waterproof pockets for safe and secure storage of valuables.

Waist, knee, and calf volume adjusters for an optimized fit.

Level 2 CE Nucleon Flex Pro knee armor and Bio-Flex hip armor for effective impact protection.

Designed with a tailored, ergonomic fit to accommodate all riding movements.

Reflective detailing on the lower leg.

According to European statutory law the CE mark is a conformity requirement for the marketing of this product. The following standards apply: Fully CE-certified riding garment to CE – Category II EN17092 standards – AA Class.

BOGOTA' PRO DRYSTAR®

JACKET

PRICE: \$ 599.99

DESCRIPTION

The all-season Bogotá Pro Drystar® Jacket has been engineered to deliver optimal protection, weather performance and comfort, and utilizes Alpinestars' Drystar® membrane for 100 percent waterproof and breathable performance. With its three-layer 'liner to drop' system the Bogotá Pro can be easily configured to the conditions, quickly adapting to your riding needs. The Bogotá has extensive ventilation panels on the chest, full back and arms for effective climate control in any conditions, with the Bogotá it's goodbye to soggy gear.

KEY FEATURES

3D ergonomic shape and pre-curved sleeves with extensive stretch inserts provides superior freedom of movement, range of motion, and offer an enhanced fit and premium comfort in the riding position.

Technical Drystar® liner provides superior breathability and exceptional wet weather performance and can be worn over or under the main outer shell for real-world practicality and versatility.

DWR (Durable Water Repellent) treatment for effective all-weather performance and superior comfort

in any weather conditions, wet or dry - designed to ensure that the outer shell always stays dry.

CONSTRUCTION

The jacket has a lightweight 600D main shell for enhanced durability, constructed utilizing 100% GRS certified recycled Nylon 6 materials.

Reinforced 2-L 450D hard outer shell construction for enhanced long-life durability and light weight, with 600D woven reinforcements for additional durability in key areas.

3D ergonomic design and pre-curved sleeves with extensive stretch panels enhance freedom of movement and comfort while riding.

The technical Drystar® liner offers excellent breathability and wet weather protection; can be worn over or under the outer shell for practical versatility.

DWR (Durable Water Repellent) treatment ensures the outer shell remains dry, providing effective all-weather performance and superior comfort.

Extensive ventilation panels on the chest, as well as on the full back, and arms with a unique sleeve vent construction and wide mesh panel for effective climate control in any conditions.

The direct ventilation panels on the chest and arms can be operated with one hand for fast and effective climate control on the go.

Detachable thermal liner, 100g body, 60g sleeves, allows the jacket to be configured to the conditions.

Intuitive and functional incorporation of zippers, connectors and ergonomic designs on liner connection, closure systems, wrists, and collar for ease of use.

Innovative collar closure with adjustable self-centering snap closure for an optimized fit, with Velcro on the inner to keep the collar in the open position in warm weather conditions.

Ergonomically designed adjustable cuffs for ease of use with gloved hands. Inner construction designed to accommodate protection insert upgrades including both back and chest inserts, and Alpinestars long back protector insert.

Two front zippered pockets, two chest pockets, an inner waterproof document pocket, and two inner pockets on the liner for safe and secure storage of valuables.

Lower hem shock cord for an optimized fit.

PROTECTION

Tech-Air® Ready and can accommodate the Tech-Air® 5 or Tech-Air® 3 Airbag System.

Level 2 CE Nucleon Flex Pro shoulder and elbow armor for effective protection against impacts.

According to European statutory law the CE mark is a conformity requirement for the marketing of this product. The following standards apply:

Fully CE-certified riding garment to CE – Category II EN17092 standards – AA Class.

TECHDURA

JACKET

PRICE: \$ 499.99

Description

The Techdura Jacket is highly modular and features technical aspects unique to Alpinestars. Constructed from a durable and rugged stretch polyamide canvas material with detachable raglan sleeves and side torso vents, the Techdura Jacket can be perfectly adapted to the climate, engineered to handle the rigors of enduro and off-road riding. The Techdura Jacket is water-resistant and windproof to protect against the elements and has been designed to fit over any Alpinestars' upper body protectors. The jacket also features a built-in pocket to seamlessly integrate a water bladder. Entirely unique to the Techdura Jacket, is the detachable tactical pack that comes included with the jacket. The tactical pack separately attaches to the back and chest, providing 4 chest pockets with an airflow space in the middle, on the front, as well as a back compartment for a separate hydration bladder or other gear. The Techdura Jacket with its tactical pack is the perfect choice, making it convenient for enduro riders to carry different items, based on the needs of the ride. The Techdura Jacket sets a unique new modern standard with its rugged yet stretchy construction to help enduro and off-road riders alike conquer all types of terrain in both comfort and style.

Construction

Rugged stretch polyamide canvas material for enhanced durability.

Water resistant for effective wet weather performance.

Key Features

Stretch paneling for an optimized fit and superior freedom of movement.

Side torso vents provide enhanced airflow and breathability.

A detachable tactical, Techdura vest with extra pockets for convenient storage comes included with the jacket.

Reinforcements on elbows for additional durability.

Detachable raglan sleeves.

Magnetic auto lock buckle for a secure closure.

Hand pockets for real-world practicality.

ST-1 WATERPROOF JACKET

PRICE: \$ 359.95

DESCRIPTION

Designed for riders looking for the benefits of all-weather, waterproof construction, and crafted for ergonomic mobility, the ST-1 WP Jacket is the perfect jacket for riders looking for a stylish and minimalistic adventure touring jacket with year-round, comfort, and optimum wet weather performance. The jacket comes with a detachable, thermal liner, to keep you warm during those colder morning or evening rides. With its streamlined construction, the ST-1 WP Jacket offers modern style and premium rider comfort, especially during wet, rainy days, and becomes the perfect all-weather, road touring outfit when paired with the ST-1 WP Pants.

KEY FEATURES

Fixed waterproof liner offers wet-weather performance.

Front, vent openings on the chest provide cooling airflow, as the jacket's venting system provides an increased surface area for air exchange, improving breathability and offering optimal riding comfort.

Redefined, modern shoulder design with Alpinestars' stylized branding gives the jacket an adventure touring-inspired look.

The ST-1 WP has a comfort fit with pre-curved arms, and ergonomic elbows for excellent freedom of movement.

Ergonomic cargo pockets' slim design, with built-in expansion, provides added storage capacity, offering enhanced utility, practicality, and a modern, stylish look.

Detachable thermal liner, 80g torso, 80g sleeves with snap button connections to anchor the liner to the jacket, may be conveniently stored in the jacket's spacious, lower back cargo pocket for real-world versatility.

CONSTRUCTION

Fixed WP membrane liner for excellent wet-weather performance and enhanced rider comfort with internal pockets for a divided chest protector and a back protector pocket, both available as optional accessory upgrades.

Front chest vents provide cooling airflow, enhancing breathability and comfort.

Modern shoulder design with Alpinestars' branding for an adventure touring look.

Comfort fit with pre-curved arms and ergonomic elbows for freedom of movement.

Two slim and ergonomic front cargo pockets with expansion for added storage and utility, 1 lower back cargo pocket, 1 zippered chest pocket, and 2 inner mesh pockets (one of the inner pockets is waterproof); pockets provide versatility and the safe and secure storage of valuables, and personal items.

Sleeve volume adjusters with press buttons on the biceps, hook and loop collar, cuff, and waist adjusters, provide for a nice, tailored fit.

Extended cut on the back for greater coverage in the riding position. Detachable thermal liner (80g torso, 80g sleeves) with snap button connections, storable in the lower back cargo pocket for versatility. Pant connection zipper for a secure fit and the prevention of wind ingress.

PROTECTION

Tech-Air® Ready.

CE Level 1 rated Nucleon Flex Plus elbow and shoulder armor for effective impact protection.

According to European statutory law the CE mark is a conformity requirement for the marketing of this product. The following standards apply to this product:

Fully CE certified motorcycling garment to CE - Category II EN 17092-4:2020 – A Class.

ST-1 WATERPROOF PANTS

PRICE: \$ 324.99

DESCRIPTION

Complementing the ST-1 WP Jacket are the ST-1 WP Pants, the perfect choice for riders looking for the benefits of all-weather, waterproof construction, and Alpinestars ergonomic mobility. Constructed from a blend of 600D poly fabric materials, the pants have ripstop fabric reinforcements on the inner legs. With a new streamlined construction, the ST-1 WP Pants offer modern style and premium rider comfort, especially during wet, rainy days. The ST-1 WP Pants come with a detachable, thermal liner to provide warmth during cold mornings and evening rides. The ST-1 Pants are a great option for adventure touring riders looking for a pair of stylish and minimalist touring pants with year-round, comfort, and optimum wet weather performance.

KEY FEATURES

Fixed waterproof liner.

New, ergonomic ACTIVE touring fit with pre-curved legs, 3D ergonomic knees, and a comfortable crotch construction for excellent freedom of movement and premium riding comfort.

Ergonomic, zippered front pockets provide generous storage capacity, offering enhanced utility and everyday practicality.

Detachable 80g thermal liner with zipper connection to anchor the liner to the pants.

CONSTRUCTION

Constructed from 600D poly fabric blend, the pants have ripstop fabric reinforcements on the inner legs for better connection and contact with the bike.

Fixed WP liner for guaranteed waterproof performance.

The ST-1 Pants are designed with an ACTIVE touring fit with pre-curved legs, 3D ergonomic knees, and a comfortable crotch construction for superior freedom of movement and exceptional riding comfort.

Fixed mesh liner for enhanced rider comfort.

Detachable thermal liner, 80g, provides all-year round riding capability.

2 front pockets provide versatility and the safe and secure storage of valuables, and personal items. Lower leg, hook and loop ankle adjusters, and waist volume adjusters provide for a tailored fit.

Pant connection zipper for attachment to an Alpinestars motorcycling jacket, provides a secure fit and the prevention of wind ingress.

Reflective detailing on the thighs for added visibility during early morning, or evening rides.

PROTECTION

CE Level 1 rated Nucleon Flex Plus knee armor for effective impact protection with a 3-tiered color-coded inner pocket system integrated in the inner lining for custom positioning of the knee protectors.

The Nucleon Flex Plus Level 1 knee armor is highly flexible and breathable providing high levels of impact protection and offering a thin profile for optimal rider comfort.

Ripstop fabric reinforcements on the inner legs for effective abrasion resistance.

According to European statutory law the CE mark is a conformity requirement for the marketing of this product. The following standards apply to this product:

Fully CE certified motorcycling garment to CE - Category II EN 17092-4:2020 – A Class.

CE Level 1 Nucleon Flex Plus impact protection, Category II EN 17092-6:2020 – C Class Impact.

TECHSTAR SOFTSHELL VEST

PRICE: \$ 184.99

Description

The Techstar Softshell Vest is a must-have for riders hitting the track on cooler days. Crafted with a windproof, lightweight stretch softshell, the vest offers the perfect blend of warmth and freedom of movement. Whether it's the morning warm-up or late afternoon ride, the vest provides that extra layer of warmth without weighing you down and offers flexibility and freedom of movement. In addition, the vest's ergonomic cut is designed to fit comfortably over your MX gear, and you can tailor the fit even further using the lower hem shock cord adjuster, while the vest's windproof design shields riders from windy conditions.

Key Features

Windproof and light, softshell vest, a perfect outer layer for training on those cooler, windy days.

Ergonomic cut to fit comfortably over MX gear.

Construction

Featuring a windproof, lightweight stretch softshell, the vest provides the perfect level of added warmth and mobility, making it a perfect solution for those cooler, windy days.

Adjustable lower hem with shock cord for a personalized, comfortable fit.

Auto-lock YKK zipper for durability, with chin guard for comfort.

Zippered hand pockets.

MX-inspired branding and graphics treatments with Alpinestars ONE GOAL ONE VISION motto and wordmark on upper back, a perfect statement for those riders wishing to ride in style.

COROZAL V2 ADVENTURE DRYSTAR BOOT

PRICE: \$ 449.99

Description

A premium, multi-material adventure touring boot the COROZAL V2 ADVENTURE DRYSTAR BOOT is packed with class-leading protective features, such as an advanced polymer shin-plate and innovative lateral ankle protection with supporting biomechanical link between the upper boot and the lower foot structure. Every component on this boot is designed for weight-saving and performance regardless of the weather or terrain, from the integrated DRYSTAR® breathable membrane to its advanced oiled leather, microfiber and suede chassis.

Construction

The upper is constructed from full grain oiled leather on lower medial panel, both with heat press texture for superior grip.

Front and rear bellow made with lightweight microfiber for more durability and abrasion resistance.

Extended PU coated leather gaiter helps seal out excessive water and dirt entry; rear gaiter includes rubber insert for flexibility and comfort.

New closure system includes 2 polymer buckles with an innovative closure system. This closure includes a ratchet with memory and a quick release/locking system with self-aligning design for easy, precise closure.

Drystar® membrane layer between upper and lining for proven performance in difficult weather conditions.

Made with PFAS chemicals

Protection

TPU shin plate and calf plate offer support and resistance for impacts.

Bio-mechanical lateral flexi-blade system provides excellent front and rear movement while offering support and protection to the ankle.

TPU double density ankles protector on medial side for protection.

Soft foams surrounds the ankles and collar offer comfort and shock absorbing performance.

Toe box and heel counter reinforcement are layered under the upper.

PP insole with steel shank co-injected for excellent feel and safety.

Corozal Drystar® boot is CE certified to EN 13634:2010.

Key Features

TPU shift pad made with technical texture for added grip plus foam padding underneath for better comfort.

Wide entry aperture for convenience with Velcro® upper closure flap to allow broad ranging calf fit adjustment.

Alpinestars exclusive vulcanized rubber compound for optimal combination of comfort and grip.

Replaceable anatomical EVA foot bed with Lycra® lining on top.

Available in US shoe sizes, 8 - 13.

RT-8 GORE-TEX

BOOT

PRICE: \$ 449.99

Description

The RT-8 GORE-TEX Boot is a protective touring boot engineered for superior comfort on and off the bike. Using a new sole construction derived from our latest performance shoes, the RT-8 sole unit offers unrivalled, all-day riding and walking comfort. With a very efficient and durable lug pattern capable of tackling any terrain, the RT-8 boots also deliver exceptional protection and riding feel. The boot's compact design has been designed to fit effortlessly under any pants.

Construction

The boot opening is managed by lateral zip mounted on elasticated panel, covered by a hook and loop gusseted flap, to protect the zipper and keep free the boot flexion.

Technical modern upper constructed with an advanced blend of microfiber and synthetic high resistance textile laminated by a seamless PU for enhanced breathability.

Protection

Optimized upper construction comfort associated with a Gore-Tex® membrane.

CE Certified.

Alpinestars integrated Transversal Protection Frame (TPF), protects the foot while delivering the necessary support on the footrest without compromising the front foot flexion for superior walking comfort.

Key Features

RT-8 has a full Gore-Tex membrane for 100 percent guaranteed waterproof performance and breathability.

Reinforced heel counter and toe box, with an additional shift pad extra layer and a reinforced shin area to protect against impacts.

Innovative instep fast lace adjuster controls the instep volume of the boot for a precise fitment and retention.

New sole unit for optimal protection and walking comfort

Innovative internal volume adjustment system.

BLACK

RIDGE V2 DRYSTAR®

BOOT

PRICE: \$ 279.99

Description

A lightweight Tech Touring boot constructed from a durable and abrasion resistant microfiber, the Ridge v2 Waterproof Boot incorporates a 100% guaranteed Waterproof membrane for optimized levels of comfort, performance and protection. The Ridge v2 Waterproof features a main Velcro® closure system for a safe and personalized closure.

Construction

Built with a technical microfiber upper that offers abrasion resistance and lasting shape retention, enhanced with stretch accordion panels for effortless flex and rider mobility.

Integrated Drystar® waterproof membrane ensures your feet stay dry no matter the weather – a fully guaranteed waterproof barrier that also breathes for comfort in all conditions.

A robust mid-sole and outsole system: a contoured high-modulus mid-sole with structured shank provides support underfoot, while Alpinestars' exclusive vulcanized-compound rubber sole with side-wrap design delivers grip, touring durability and ground feedback.

Tailored protection zones: double-layer hot-melt shin reinforcement saves weight while resisting impacts; dual-density ankle protectors (medial & lateral) reinforced with poly-foam padding add stability and comfort; heel and toe areas also benefit from internal reinforcements.

Intuitive closure system: lateral ankle zip covered by a hook-and-loop flap for secure fit and easy on/off; main Velcro strap provides adjustability and a snug, personalised fit.

Comfort-driven foot-bed design: removable, anatomically profiled insole made of EVA foam and memory textile gives premium cushioning, while the ergonomic toe-box enhances compatibility with gear-levers and controls.

Certified to EN 13634:2010 CE standard, so you know the protection credentials are solid.

TOUCAN GORE-TEX BOOT

PRICE: \$ 599.99

Description

A technical and durable touring boot brimming with intelligent design features, the Alpinestars Toucan Gore-Tex Boots are ideally suited to long days in the saddle. With 100% weatherproofing provided by a GTX liner, integrated protection systems and superb comfort and flexibility features the Toucan Boots are indispensable for rugged roads. The Toucan's unique buckle design is pulled straight from Alpinestars' dirt boots and helps to shed dirt and mud while maintaining a low profile to minimize the likelihood of damage to the buckle or your bike.

Construction

A fully CE-certified boot incorporating full leather and suede with a 100% waterproof Gore-Tex membrane.

Sole construction features integrated steel shank for improved comfort and durability.

Protection

Innovative lateral ankle protection system forms flexible link between upper boot and lower foot area for added control and support.

Medial side structure is contoured for perfect fit and flexibility fit, with reinforced polymer sculpturing for grip and protection against bike's heat and impact.

Advanced TPU protection layer covers the internal heel counter and toe box enhancing support and rigidity in key impact areas.

Coated leather panel forms the outer surface of the toe box providing effective abrasion and weather resistance.

Heel housed in molded external protector for increased impact dissipation and absorption.

Contoured polymer shin guard incorporates an innovative vertical blade system for improved forward and rear control and support.

Medial surface stamped calf suede panel improves grip and protection.

Key Features

Advanced instep and Achilles accordion flex zones for superior comfort, control and support.

Wide-entry aperture for convenience with combined hard polymer and Velcro closure to allow wide range of calf fit adjustments.

Closure system features replacable, slim, aluminum buckles for security with memory adjustments and quick-release locking system.

Upper boot collar and inner lining constructed from breathable mesh for added comfort.

Removable anatomically profiled EVA foam foot bed.

Alpinestars exclusive rubber compound for the optimal combination of comfort and grip.

Lateral side vent for added airflow.

WOMENS STELLA ANDES V4 DRYSTAR® JACKET

PRICE: \$ 499.99

Description

The Stella Andes v4 Drystar® Jacket blends advanced functionality with a sleek, modern style, that adventure riders and commuters alike will appreciate for its practicality and all-weather performance. The Alpinestars Drystar® construction ensures 100% waterproof protection and breathability for all-weather riding. The jacket incorporates large stretch softshell panels for mobility and ripstop reinforcements in key areas for added durability. With a detachable, full-sleeve thermal lining, direct ventilation on the chest, and an overlap back closure for air circulation, the Stella Andes v4 is built for rider comfort. The jacket is also Tech-Air® Ready and equipped with CE Level 1 Nucleon Flex Plus armor for enhanced impact protection.

Key Features

All-Terrain Versatility: Constructed from a mix of reinforced 450D polyfabric and ripstop textile for exceptional durability.

Drystar® Membrane: Provides 100% waterproofing in wet conditions.

Effective Ventilation: Extended direct ventilation openings for enhanced airflow, designed for optimal air circulation while riding.

Ergonomic Fit: Anatomically designed for the female figure, the jacket offers a customizable fit with waist adjusters, collar drawstring adjuster, bicep snaps, forearm straps, wrist closures, elongated hem with greater coverage in the rear for comfort, along with a hydration hose loop on the chest.

Practical Storage: Multiple waterproof (WP) and water-resistant (WR) pockets, including two internal pockets and a large rear back compartment.

Impact Protection: Featuring CE Level 1 Nucleon Flex Plus shoulder and elbow armor for comfortable impact protection.

Construction

Featuring an advanced polyfabric and Drystar® construction for durable waterproofing and comfort in all conditions.

Durable ripstop and PU reinforcements in high-abrasion areas (shoulders, elbows, and forearms) for added durability.

Pre-contoured sleeves with stretch panels for flexibility.

Elongated direct ventilation air intakes for high levels of airflow.

Removable, long-sleeve thermal liner (100g body, 80g sleeves) for versatile weather comfort.

Integrated chest and back compartments ready for Nucleon PLAS-MA or cell back/chest protectors, available as accessory upgrades.

Equipped with multiple waterproof and water-resistant pockets, including a large waterproof back compartment and water-resistant cargo pockets with an integrated quick-access pocket, providing ample storage for practical adventure riding and commuting needs.

Waterproof VISLON® zipper for fast front closure.

Reflective inserts for increased rider visibility in low-light conditions.

HURRICANE RAIN V2

JACKET

PRICE: \$ 99.99

DESCRIPTION

The highly versatile, waterproof Hurricane Rain V2 Jacket has been designed to deliver optimal protection and comfort in wet weather riding conditions. The jacket's packable design allows it to be easily folded up and quickly packed into its convenient built-in carrying pouch – a perfect solution for stowing away the rain gear until it is needed again.

KEY FEATURES

- Ultra-lightweight, rain jacket constructed from 100% waterproof, breathable, and wind resistant laminated fabric with inner comfort mesh lining on the sleeves and upper body.
- Front double flap closure with internal zipper and top hook and loop closure for optimal protection against water ingress.
- Elasticated cuffs, back collar, and jacket waist band for a tightened closure and the prevention of water entry.
- Ergonomic fit on the elbows, designed to provide premium rider comfort.
- Jacket comes with an inner pouch that provides convenient storage when the rain jacket is not needed.
- Reflective Alpinestars wordmark detailing on upper left chest and center back provides added visibility during early morning and evening rides.

CONSTRUCTION

- Constructed from an ultra-lightweight and windresistant, laminated fabric that offers 100% waterproofness as well as breathability; with waterproof and breathability ratings: WP: 4,000 mmH2O, BREATHABILITY (MVTR): 6,000 g/m2 (24hours).
- The fabric has been specially treated to avoid sticking when worn over textile or leather garments.
- The front double flap closure with its internal zipper and top hook and loop closure provides optimum protection against the ingress of water.
- Tape-sealed seams for guaranteed waterproof performance.
- Elasticated and contoured collar, cuffs, and waist for maximum protection against ingress of wind and water, and to ensure optimal riding comfort.
- Elongated back for extended coverage in the riding position.
- Fixed, lightweight, poly-mesh comfort lining provides improved internal air circulation and enhanced rider comfort.
- Reflective detailing improves visibility of rider in poor weather conditions.
- The jacket comes with a convenient, built-in compact storage bag perfect for storing the rain jacket when not in use, the bag has a slim handle for easy transport of the rain gear.

NUCLEON PLASMA

BACK PROTECTOR INSERT

PRICE: \$ 99.99

The extremely lightweight Level 2 CE and UKCA certified Nucleon Plasma Back Protector Insert features Alpinestars' Nucleon Plasma Technology. Unique to Alpinestars, Plasma is an eco-friendly, sustainable and lightweight impact absorbing material, while its clever design delivers class-leading levels of adaptability, breathability and ventilation. Backed with a soft-touch textile coating, this ultra-adaptive protector delivers the optimum balance of force dispersion, flexibility and comfort.

Eco-friendly and sustainable impact absorbing material; a blend of bio-based materials and high performance polyurethane delivers superb adaptability for an enhanced performance fit.

Highly ventilated for superior airflow and breathability, with a softtouch inner liner on the skin side for optimum rider comfort.

The super lightweight back protector insert is developed in three waist-to-shoulder dimensions in order to cover all body sizes.

60 years of innovation and extensive testing and research have resulted in Plasma Technology; the perfect balance between impact force absorption, density, thickness and pliability.

The adoption of Nucleon Plasma Technology allows Alpinestars to tailor the geometry throughout the protector, resulting in extensive perforations while still far exceeding the impact performance requirements of the CE Standards. Another standout feature of this design is the extensive number of lateral and longitudinal ventilation channels for effective heat dissipation.

The Nucleon Plasma Back Protector Insert's innovative design allows the protector to compress and extend on itself which delivers an ultra-adaptive fit for superior rider comfort.

According to European statutory law the CE mark is a conformity requirement for the marketing of this product. The following standards apply to this product: Back Protector: Category II EN 1621-2:2014 Level 2.

NUCLEON PLASMA

BACK PROTECTOR WITH STRAP

PRICE: \$ 199.99

DESCRIPTION

Ergonomically designed for all forms of road riding, the Nucleon Plasma Back Protector With Strap has been engineered to be lightweight, breathable, comfortable and protective, and features an embedded Nucleon Plasma long back protector with a composite semi-rigid thermoplastic central spinal zone on the outer for additional protection.

KEY FEATURES

The Level 2 CE certified back protector is a composite construction and has a central semi-rigid thermoplastic zone on a Nucleon Plasma back protector for greater impact force dispersion in a critical area.

The innovative Plasma M design delivers maximum airflow and heat dissipation, and this M design is replicated on the strategically aligned semi-rigid zone for guaranteed unobstructed ventilation.

The soft tactile backing guarantees structural integrity of the protector by preventing any potential tearing.

Fully adjustable shoulder and waist straps for a fully customizable fit.

The shoulder straps are removable allowing the protector to be easily and quickly converted into a race-specific version.

CONSTRUCTION

USDA certified bio-based eco-friendly and sustainable impact absorbing material.

Ultra-comfortable soft and flexible Nucleon Plasma viscoelastic compound delivers enhanced rider comfort.

Highly breathable due to the engineered structure and the channelled inner surface to allow air circulation

Constructed with a soft tactile inner liner for additional rider comfort.

The super lightweight back protector is developed in three waist-to-shoulder dimensions in order to cover all body sizes.

The side straps are equipped with a V-configuration to ensure the back protector has a performance fit that follows the curvature of the spine.

Impact performance significantly exceeds the minimum CE certification requirements.

ROVER MULTI

BACKPACK

PRICE: \$ 279.99

Description

A 32.4L multi-use Adventure Touring backpack built for comfort, durability, and versatility. Its ergonomic design and external compartments make it ideal for both long rides and daily commuting.

Construction

Adjustable harness system for fit, comfort, and load stability.

Roll-top main compartment with removable waterproof liner for quick access.

Compression lid for secure, easy packing.

Hydration pocket for added rider comfort.

Expandable zippered side pods for extra capacity.

Key Features

- Multiple external pockets for quick, easy access.
- Large front zip pocket, side-entry front panel pocket, and small lid pocket for essentials.
- Compression straps flatten the bag when not in use.
- Easy-pull strap ends with tie-down loops for secure fastening.
