TECH-AIR® 7X SYSTEM

PRICE: \$ 1,499.99

Description

Developed for road racing, track days, and performance road riding, the FIM-approved Tech-Air® 7x System is Alpinestars' most advanced airbag system, built on MotoGP-proven technology.

Fully autonomous and self-contained, it provides ventilated protection for the shoulders, chest, full back, and coccyx. The system can be worn standalone or integrated into Tech-Air® compatible suits and jackets, adapting seamlessly between Race, Road, and Light Off-Road environments.

With 12 onboard sensors and an AI-driven crash detection algorithm, the Airbag deploys in as little as 44 milliseconds, reducing impact force by up to 90% compared to passive CE Level 1 back protection.

Key Features

- Dual Modes: RACE and STREET—switchable via the Tech-Air® App.
- FIM-approved, compatible with Tech-Air® Ready and third-party suits (4 cm chest allowance).
- Dual inflators: Two deployments before servicing.
- 20-hour battery life; 1-hour charge ≈ 8 hours ride time.
- Automatic activation via magnetic front flap.
- Washable base layer with removable airbag and electronics.

Protection and Construction:

- Certified under CE Category II PPE (EU 2016/425).
- Includes coccyx coverage and 12-sensor crash detection array.
- Operates between -10°C and 50°C with ventilated chassis and stretch panels for comfort.
- LED display for system status and battery life.
- Bluetooth connectivity via Tech-Air® App for updates, mode switching, and ride analytics.

AVAILABLE SIZES: **XS**(54), **S**(56), **M**(58), **L**(60),
XL(62), **2XL**(64)

BLACK RED (0013)

TECH-AIR® 5 PLASMA

PRICE: \$ 1,299.99

Description

The Tech-Air® 5 PLASMA is Alpinestars' lightest, most advanced airbag system yet—designed for riders seeking maximum protection, comfort, and freedom of movement. Engineered to fit seamlessly under any jacket, it delivers an “invisible” feel while providing full upper-body protection.

Key Features

Comprehensive Coverage

Protects the chest, ribs, back, and shoulders with an integrated Nucleon PLASMA back protector made from eco-friendly, impact-absorbing material for superior flexibility, ventilation, and comfort.

Ultra-Lightweight & Slim Profile

- Weighs just 1,530 g — over 25% lighter than the Tech-Air® 5.
- Minimal bulk for a discreet fit under jackets without restricting movement.

Superior Comfort & Breathability

- Full-stretch, mono-layer mesh construction enhances airflow.
- Moisture-wicking treatment ensures comfort on long rides.
- Ergonomic sleeves and a low-cut neck improve mobility and reduce irritation.

Advanced Protection Technology

- Anatomically designed airbag contours to the rider's body for enhanced coverage.
- Minimal plastic use for improved airflow and reduced weight.
- Optimized compatibility with Alpinestars jacket ventilation systems.

Fast Inflation & Easy Maintenance

- Single-canister design enables faster inflation, lower weight, and simpler servicing.
- Quick-release Velcro cover allows rapid inflator replacement (where legally permitted).

Battery & Sizing

- Up to 30 hours of ride time per charge.
- Available in 8 sizes (XS–4XL) for an adaptive fit.

Riding Modes & Interface

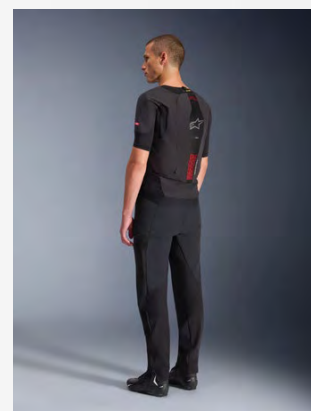

- Three Modes: STREET, OFF-ROAD, RACE.
- Switch modes via LED Display button; vibration confirms activation.
- Auto-activation when zipped using a magnetic sensor.
- LED and haptic feedback indicate system status and alerts.

Protection Certifications

- CE Category II PPE under EU Regulation (UE) 2016/425 and UK equivalent.
- Back Protector: EN1621-2:2014 Level 1
- Inflatable Protector: EN1621-4:2013 Level 1
- Garment: EN17092-6:2020 Class C Undergarment
- Certified for up to six deployments before replacement.

TECH-AIR® 5 SYSTEM

TECH-AIR® 5

PRICE: \$ 899.99

Description

Tech-Air® 5 is Alpinestars' autonomous airbag system specifically designed for road riders who demand top-tier protection in a versatile, slim profile. The system delivers a comprehensive upper-body coverage, including shoulders, chest, ribs, and full back. With its unique shoulder protection—critical in street crashes—Tech-Air® 5 significantly reduces the risk of injury, redefining road safety. Tech-Air® 5 can be worn under any proper fitting textile jacket or Tech-Air® compatible jacket, or any leather jacket with 4 cm of space around the circumference of the rider's chest.

Key Features

Sensor & Algorithm System:

- 6 integrated sensors (3 accelerometers, 3 gyroscopes).
- AI crash detection refined from millions of kilometers of rider data.
- Airbag deploys within 20–40 milliseconds depending on impact.

Impact Protection:

- Reduces impact force by up to 95%.
- Protection equivalent to 18 CE Level 1 back protectors.

Ease of Use:

- Simply zip and close the magnetic flap to activate.
- LED display shows system status.

Battery & Connectivity:

- Up to 30 hours of ride time with fast magnetic USB charging.
- Bluetooth connection to the Tech-Air® App for system status, battery life, firmware updates, and ride analytics.
- Switch between STREET and RACE modes (RACE for closed-course use).

Protection

Fully self-contained electronic system offering full upper-body coverage—no tethers, no external sensors.

Compatible with most textile and leather jackets (allowing ~4 cm chest room or expansion panels).

Delivers industry-leading protection and impact absorption in real-world crashes.

Heritage

Since 2001, Alpinestars has pioneered motorcycle airbag innovation—from MotoGP systems to consumer-ready products.

Milestones include Tech-Air® Race (2011), Tech-Air® Street (2014), and Tech-Air® 5 (2020)—a CES-recognized breakthrough representing two decades of rider-first engineering.

Back Protector: EN1621-2:2014 Level 1

Inflatable Protector: EN1621-4:2013 Level 1

Garment: EN17092-6:2020 Class C Undergarment

Certified for up to six deployments before replacement.

ALPINESTARS RACE BOOTS

ALPINESTARS.COM

SUPERTECH R V2

BOOTS

PRICE: \$769.99

Description

Every component of the Supertech R Boot—Alpinestars’ definitive racing boot worn by past and present champions—has been upgraded to enhance performance and comfort. Developed with feedback from top-level racers, it features a redesigned flex zone, rear bellow, top gaiter, shifter and shin plate, new shin slider, and updated inner bootie, all combining to deliver class-leading protection, flexibility, and feel.

Construction

New TPU stretch-panel design with zip for easier entry, exit, and a closer fit.

Hook-and-loop closure keeps the zip puller secure.

Micro-adjustable ratchet strap at the top for precision fit.

Replaceable heel-plate slider increases slide performance and crash protection.

Lightweight rubber-compound sole for excellent peg grip.

Updated bio-mechanical 3D mesh inner bootie adds structure and comfort.

Protection

CE EN13634:2017 certified.

Inner bootie includes soft TPU toe reinforcement and ankle padding for improved impact protection, stability, and cushioning.

Replaceable co-injected TPU/aluminum toe slider protects against abrasion.

New TPU shifter enhances lower-medial protection.

Redesigned TPU shin plate improves impact absorption and abrasion resistance.

Replaceable shin slider adds further durability.

Key Features

Microfiber upper offers high abrasion resistance with exceptional flexibility.

New front flex zone improves impact protection and natural movement.

Enhanced airflow and breathability through redesigned flex and bellow areas.

Stretch-microfiber rear bellow ensures smooth forward/back movement.

Updated microfiber top gaiter with TPU over-injection for improved grip and fit.

Synthetic microfiber medial panel increases abrasion resistance and bike feel.

SUPERTECH R V2

VENTED BOOTS

PRICE: \$769.99

Description

Almost every component of the Supertech R Vented Boot—Alpinestars' definitive racing boot worn by champions past and present—has been upgraded for even sharper performance. Featuring extensive perforation zones for maximum airflow, its new front flex area, rear bellow, top gaiter, shifter and shin plate, shin slider, and inner bootie all work together to elevate comfort, protection, and ventilation to a new class-leading level.

Key Features

Redesigned TPU shin plate for improved impact absorption and abrasion resistance.

Replaceable shin slider adds extra abrasion protection.

New TPU stretch-panel design with zip for easier entry and a closer fit.

Hook-and-loop closure keeps the zip puller secure.

Micro-adjustable ratchet strap provides a precise fit.

Microfiber upper with laser-perforated zones offers optimal breathability, abrasion resistance, and flexibility.

New front flex area improves movement and impact protection while enhancing airflow.

Redesigned rear bellow in stretch microfiber ensures smooth forward and backward flex.

Updated microfiber top gaiter with TPU over-injection improves grip and durability.

Construction

Lightweight rubber-compound sole provides excellent peg grip.

Separate, updated bio-mechanical 3D-mesh inner bootie enhances structure and rider comfort.

Protection

Synthetic microfiber medial panel improves abrasion resistance and bike contact feel.

New TPU shifter enhances lower-medial protection.

Inner bootie features soft TPU toe reinforcement and ankle padding for superior impact protection, stability, and comfort.

Replaceable co-injected TPU/aluminum toe slider with easy screw system guards against abrasion.

Replaceable heel-plate slider increases sliding performance and crash protection.

CE EN13634:2017 certified for protective performance.

SMX PLUS V3

BOOTS

PRICE: \$549.99

Description

The SMX Plus V3 Boot perfectly blends sleek sports styling with advanced protection features developed in Alpinestars performance footwear department. The durable and light microfiber upper is reinforced with a rugged polymer protector and the exclusive Multi-Link Control (MLC) system prevents ankle torsion while offering freedom of movement.

Construction

Advanced microfiber upper construction for lightweight high performance protection and superb levels of flexibility.

Front flex area is constructed with a soft microfiber for improving abrasion resistance and natural forwards and backwards movement.

Flexible accordion microfiber on Achilles gives enhanced natural movement.

Strategically positioned ventilation area in heel and shin TPU for breathability and airflow.

Outside entry/exit has stretchable accordion panel for a close fit and ease of entry and removal. Contoured high modulus shin plate protector gives superior impact and abrasion resistance.

An evolution of Alpinestars unique Multi-Link Control system provides advanced external protection and support for ankle articulation, limiting hyper-torsion, hyper-extension and hyper-flexion as well as providing Achilles and ankle impact protection.

Wide heel counter with lateral ventilation extends to the ankle and is combined with a shock absorbing padded insert and self-molding ankle protectors.

Key Features

Dual density TPU replaceable toe slider with screw-in assembly providing protective coverage around the outer toe area.

Replaceable heel slider and external side heel slider are positioned to dissipate and absorb shock and promote sliding during an accident.

Large front and rear asymmetrical accordion zones are optimized to maximize flexibility for maximum comfort and improved safety.

Micro adjustable ratchet top closure stows tab end.

Advanced synthetic forefoot lining, laminated with open cell foam for shock absorption and highly breathable lining in ankle and leg areas for comfort.

Alpinestars anatomical and replaceable countered EVA footbed provides arch support and forefoot pedal feeling.

Durable sole, designed for improved riding feel, features evenly textured rubber for consistent grip.

Inner instep speed lacing closure and unique lateral zipper offer precise and secure fit.

Alpinestars Lace-Lock System is constructed from an advanced polymer resin to guarantee a quick, precise and secure closure.

Hook and loop tap locks the zip pull close, keeping in flat and safe.

Protection

SMX Plus V3 boot is CE-certified to EN 13634:2017.

WOMENS STELLA SMX-6 V3

BOOTS

PRICE: \$399.99

Description

Loaded with advanced safety and performance features, the Stella SMX-6 v3 Boots are Alpinestars' ultimate women's track and street boots, combining race-derived protection with everyday comfort. The newly designed upper is precision-engineered to match the female foot's contours for optimal flexibility and improved walking comfort. Every element—from protection systems to ergonomics—has been developed to enhance rider performance and confidence on and off the bike.

Key Features

Dedicated women's fit for optimal comfort and performance.

Advanced microfiber upper for lightweight durability, flexibility, and abrasion resistance.

Redesigned front and rear flex zones with over-injected textile and soft TPU for natural movement and improved impact protection.

Evolved biomechanical ankle brace offers superior articulation and protection for the shin, calf, and Achilles.

Alpinestars Lace-Lock System ensures fast, precise, and secure closure.

Construction

Microfiber upper provides durability, high abrasion resistance, and flexibility.

Ergonomic last improves control precision and foot comfort.

Elastic front gaiter ensures a precise fit in all conditions.

Medial entry system with elastic-mounted zipper and wide hook-and-loop closure for convenience.

Streamlined inner profile improves bike contact and rider feel.

Dual-compound removable EVA footbed with Lycra top enhances comfort.

Internal insole with shank reinforcement supports the arch and boosts protection.

Internal toe box reinforcement for durability and feel.

Lightweight rubber-compound sole delivers excellent pedal grip.

Protection

TPU lateral ankle brace provides biomechanical support between shin, calf, and ankle.

TPU shifter zone improves lower-medial protection.

Compact, race-inspired TPU shin plate enhances impact and abrasion resistance.

Dual-density TPU ankle protectors positioned between upper and lining for targeted coverage.

Replaceable TPU toe sliders with screw-in system for durability and walking comfort.

Reinforced TPU rear calf bridge increases protection and support.

CE EN 13634:2017 certified.

ALPINESTARS RIDE SHOES

[ALPINESTARS.COM](https://www.alpinestars.com)

AUSTRAL GORETEX

RIDE SHOE

PRICE: \$299.99

Description

With a streamlined hi-top design, the Austral Gore-Tex Boots deliver supreme rider comfort and fit in a stylish, sleek design, while the waterproof Gore-Tex membrane guarantees exceptional wet weather performance. With a lace closure and wide aperture entry system, this boot is easy to put on and a great choice for adventure riders looking for a comfortable and stylish touring that performs in all weather conditions.

Key Features

A Gore-Tex liner delivers proven all-weather performance, remaining waterproof while still being highly breathable.

PrimaLoft® is strategically positioned between the upper and the lining to deliver optimum levels of insulation on the forefoot and toe areas.

The rubber sole utilizes a special compound that provides textured grip and excellent absorption, and features an integrated support shank for an enhanced sole rigidity.

Sports sole design incorporates a high flex inner structure (lasting insole) for superior walking comfort.

Construction

The upper is constructed from a superbly lightweight, durable and abrasion resistant microfiber for high levels of performance.

The Austral Boots feature a Gore-Tex liner that ensures reliable all-weather functionality, maintaining waterproof properties while allowing for high breathability.

PrimaLoft® is strategically placed between the upper and the lining, offering optimal insulation in the forefoot and toe regions.

Equipped with a traditional lace closure system for a quick, easy, secure, and comfortable fit, with a lateral adjustable hook and loop closure system for enhanced security and precision.

An asymmetric toe design is strategically positioned on the shift area for additional coverage and protection.

The tongue is constructed from perforated microfiber plus soft textile for the optimum blend of breathability and comfort.

The rear calf is constructed from textile for additional comfort and breathability.

Features a removable anatomic EVA footbed with Lycra lining on top for supreme levels of support and comfort.

The rubber sole is made with a special compound that enhances grip and shock absorption, and includes an integrated support shank for improved rigidity.

The sports sole design incorporates a highly flexible inner structure for exceptional walking comfort.

Protection

Dual density ankle protectors are strategically positioned between the upper and padded lining to provide the strategic protection in key areas.

A TPU heel counter design ensures impact protection in a critical area while also offering additional support and security.

Strategically positioned internal toe box reinforcements are layered beneath the upper for a more streamlined, ergonomic design.

The Austral Gore-Tex touring Boots are CE certified to EN 13634:2017.

BLACK DARK GREY (0111)

SMX 1 R V2

RIDE SHOE

PRICE: \$279.99

Description

A class-leading, low-cut performance riding boot, the SMX-1 v2 incorporates a range of technical innovations for improved comfort, fit, and durability. Constructed from lightweight, abrasion-resistant microfiber and reinforced with strategically placed TPU protectors, it features a high-grip rubber compound sole for excellent traction both on and off the bike. Accordion flex zones provide support and freedom of movement in all riding positions.

Construction

Ergonomic shaping across the forefoot for comfort and streamlined fit.

Anatomically angled closure strap follows the natural shape of the instep.

Front Velcro® closure allows quick, secure fastening while maintaining flexibility; strap includes TPR puller for ease of use.

Aramid fiber wiring reinforces the strap system for strength while remaining lightweight.

Alpinestars' exclusive compound rubber sole enhances feel, grip, water dispersion, and durability.

Integrated TPF (Transversal Protection Frame) in the sole helps protect against lateral forces.

Instep and Achilles accordion flex zones in lightweight microfiber enhance comfort and mobility.

Thermowelded flex grooves assist controlled flex at instep, medial, and rear zones.

Reverse zip closure for easy on/off access.

Protection

CE Certified to EN 13634:2017.

External high-modulus TPU heel counter, lateral ankle protector and shift pad enhance shock protection and durability.

Key Features

Advanced microfiber upper for durability, comfort and abrasion resistance.

Innovative heel counter support system works with closure strap for improved fit and structural integrity.

Rear heel area includes soft TPR insert for improved ankle movement and comfort on controls.

Rear flex bellow features ventilation window for effective airflow.

New ergonomic TPU shift pad for increased durability in a high-wear area.

Double-density ankle protectors on both sides for added protection.

Internal toe box reinforcement improves feel and durability.

Removable anatomic footbed with EVA foam and Lycra® top layer for comfort and support.

Internal mesh lining for breathability and moisture-management.

Replaceable bi-injected TPU forefoot slider with quick-change, easy-screw design.

WOMENS STELLA SMX-1 R V2

RIDE SHOE

PRICE: \$249.99

Description

A class-leading, low-cut performance riding boot, the Stella SM-1 R v2 Riding Shoe incorporates a host of technical innovations for improved levels of comfort, fit and durability. Constructed from a lightweight and abrasion-resistant microfiber upper and is reinforced with strategically positioned TPU protectors the Stella SMX-1 R v2 features a rubber compound sole with superior grip patterning for excellent grip both on and off the bike, while the accordion flex zones give support and control regardless of your riding position.

Construction

Anatomically engineered for an optimized women's fit.

Main upper constructed from advanced microfiber for comfort, durability and abrasion resistance.

Innovative heel counter support system works with the strap closure for improved fit, support and structural integrity.

Soft TPR insert at the rear of the heel works with the flex zone to enhance ankle movement and comfort on bike controls.

Rear flex bellow includes a flex window that also acts as an air intake for ventilation.

New ergonomic TPU shift pad for increased durability in a high-wear area.

Ergonomic forefoot shaping provides a comfortable fit across a wide range of foot profiles.

Angled closure strap follows the natural shape of the rider's instep.

Protection

CE Certified to EN13634:2017.

External high-modulus TPU heel counter, lateral ankle and shift pad improve shock protection and durability.

Key Features

Front Velcro® closure system ensures a quick, secure fit and flexible feel, with TPR puller for easy use.

Aramid fiber reinforcement in the strap system adds strength while remaining lightweight.

Alpinestars' exclusive compound rubber sole enhances grip, feel, water dispersion and durability.

Integrated TPF (Transversal Protection Frame) helps protect against lateral impacts.

Instep and Achilles accordion flex zones in lightweight microfiber improve comfort and maneuverability on or off the bike.

Thermowelded flex grooves assist controlled flexibility across key movement zones.

Reverse zip closure for convenient entry and exit.

Double-density ankle protectors are layered under the upper for added protection and abrasion resistance.

Replaceable bi-injected TPU forefoot slider with easy-screw design for quick replacement.

Internal toe box reinforcement improves durability and feel.

Removable anatomic footbed with EVA foam and Lycra® for comfort and support.

Internal mesh lining for breathability and moisture-wicking.

PRICE: \$279.99

Description

Velocity meet versatility with the Fastback v2 DRYSTAR® Boot, this road riding boot incorporates Alpinestars waterproof and breathable DRYSTAR® membrane as well as internal protection and a breathable mesh liner and padding for superb levels of comfort and performance.

Construction

Aggressive, new design upper combining leather and microfiber for abrasion resistance and durability.

Punched microfiber on lower tongue and eyelet for durability and dynamic look.

Lace closure system with adjustable hook and loop grip closure strap for easy, secure and comfortable fit.

Protection

Extended cuff offers increased lower shin protection.

Waterproof and breathable DRYSTAR® membrane layer between upper and lining for proven performance in difficult weather conditions.

TPR ankle protector on lateral quarter and layered under the upper on medial quarter, provide the strategic protection and flexibility in key areas.

TPR lateral slider offers excellent abrasion protection.

FASTBACK v2 DRYSTAR® shoe is CE certified to CE Standards CE 89/686/EEC – CAT 2

Key Features

Highly breathable mesh lining improves comfort and breathability.

Padding on tongue and heel area provides high levels of comfort and fit around the ankle and instep.

Internal toe box and heel counter reinforcement is layered under the upper for more ergonomic design.

Advanced rubber compound cup sole is molded to the upper to offer stability, grip, support and to provide a good walking comfort.

FASTER-3 RIDEKNIT®

RIDE SHOE

PRICE: \$249.99

Description

Featuring new performance innovations adapted from decades of R&D experience in the highest level of motorsports, the Faster-3 Shoe incorporates class-leading protective features, both inside and outside. The Faster-3 Shoe is constructed from a lightweight, durable microfiber chassis and com-fort-giving interior mesh, resulting in an aggressively styled road racing shoe offering performance, precision, flexibility and structural integrity.

Construction

Upper constructed from a superbly lightweight, durable and abrasion-resistance microfiber.

Replaceable anatomical EVA footbed with Lycra lining on top.

3D mesh lining for excellent breathability with anti-slip micro-suede on heel.

New TPR heel counter design ensures additional lateral support and security.

Protection

According to European statutory law the CE mark is a conformity requirement for the marketing of this product. The following standards apply:

CE EN13634:2017.ISSUE DATE - 11.20

Key Features

Enhanced TPU ankle extended in lower lateral area increases support and protection.

TPR slider details on lateral toe box gives enhanced flex and protection.

Asymmetric toe design gives protection on shift area.

Traditional lace closure system for an easy, secure and comfortable fit.

Lateral adjustable hook and loop closure system with TPR strap for added security.

Medial dual density ankle protectors between the upper padded lining to provide strategic protection and flexibility in key areas.

Tongue and collar padding provides high levels of comfort and an excellent fit around the ankle and instep.

Internal toe box and heel counter reinforcement is layered under the upper for a more ergonomic design.

Extremely lightweight, specifically compounded rubber sole provides textured grip, superb absorption and features an integrated support shank for enhanced sole rigidity.

FASTER V4

RIDE SHOE

PRICE: \$229.99

Description

Featuring performance innovations derived from Alpinestars’ rich history of competing at the very highest levels of motorsports, the Faster-4 Drystar® Shoe utilizes a seamless microfiber construction upper to create an even more protective and comfortable riding shoe. The Faster-4s are extremely lightweight, breathable, and durable, and incorporate Alpinestars Drystar® technology, a multi-layer membrane engineered for moisture permeability, breathability, and durability that offers riders 100% waterproof performance. With their reinforced sole that provides better stability and improved comfort, the Faster-4 Shoes are the perfect sports riding shoes.

Key Features

- All-Weather Protection: Upper is constructed with Drystar® technology, for effective wet weather performance, and extremely lightweight, durable, and abrasion-resistant microfiber.
- Advanced Rubber Sole: Extremely lightweight, specifically compounded, reinforced rubber sole provides textured grip, superb absorption, and features an integrated support shank for enhanced sole rigidity.
- Enhanced Comfort: Heel dampening in the midsole for enhanced comfort.
- Excellent Fit: Tongue and collar padding provide high levels of comfort and an excellent fit around the ankle and instep, with a rear flexion point for further flexibility and comfort.
- Protective Design: Reinforced ankle structure to provide support.

Construction

- 3D mesh lining for excellent breathability with anti-slip micro-suede on the heel.
- TPR slider details on the lateral toe box provide enhanced flex when walking.
- Lateral adjustable hook and loop closure system with TPR strap for added security.
- Replaceable anatomical EVA footbed with Lycra lining on top.
- Traditional lace closure system for an easy, secure, and comfortable fit.

Protection

- Medial dual density ankle protectors for proven protection against impacts and abrasion.
- Enhanced TPU ankle extended in the lower lateral area increases support and protection.
- Internal toe box and heel counter reinforcement are layered under the upper for a more ergonomic design while delivering further coverage and abrasion resistance in key areas.
- Asymmetric toe design provides protection on the shift area.
- According to European statutory law, the CE mark is a conformity requirement for the marketing of this product. The following standards apply: CE EN13634:2017.

WOMENS STELLA FASTER V4

RIDE SHOE

PRICE: \$229.99

Description

Featuring new performance innovations adapted from decades of R&D experience at the highest levels of motorsports, the Stella Faster-4 Shoe is engineered specifically for women riders. Utilizing a seamless knitted construction to create a riding shoe that is extremely lightweight and breathable, and boasts class-leading protective features, both inside and out.

Key Features

Main upper material constructed from an advanced microfiber that incorporates seamless, thermo welded panels to create an innovative, lightweight, and technical road riding shoe, offering performance, flexibility, and structural integrity.

3D mesh lining for high levels of breathability and lightweight, with anti-sliding microsuede on the heel.

Additional back Flexion point constructed from soft microfiber to improve both back flexion and back protection, as well as to offer improved structure and riding comfort.

Medial quarter with dedicated seamless combined with soft TPU area provides added structure and comfort.

Rear collar construction made of soft textile for enhanced comfort and improved back flexion.

The unique, TPR on the lateral calf and slider details combined with the toe-box to offer more support, protection, and flexion.

Traditional lace closure system for easy, secure, and comfortable fit.

Ergonomic TPR strap with lateral adjustable hook and loop closure system for an easier prehensibility.

Construction

Enhanced TPU ankle extended in lower lateral area increases support and protection.

TPR slider details on lateral toe box gives enhanced flex and protection.

New TPR heel counter design ensures additional lateral support and security.

Asymmetric toe design gives protection on shift area.

Traditional lace closure system for an easy, secure, and comfortable fit.

Lateral adjustable hook and loop closure system with TPR strap for added security.

Tongue and collar padding provides high levels of comfort and an excellent fit around the ankle and instep.

UPGRADED SOLE UNIT

New sole design compound in rubber provides textured grip, excellent absorption and features an integrated shank for an enhanced sole support, with extra durability, at the heel.

Heel dampening midsole.

Replaceable anatomical EVA footbed with Lycra lining on top.

Protection

Medial dual density ankle protectors are applied between the upper and padded lining to provide the strategic protection and flexibility in key areas.

Internal toe box and heel counter reinforcement is layered under the upper for more ergonomic design.

According to European statutory law the CE mark is a conformity requirement for the marketing of this product. The following standards apply: CE EN13634:2031

CHROME

RIDE SHOE

PRICE: \$229.99

Description

Casual styling and protective features make the Chrome Riding Shoes a great option for any urban rider. Featuring a modern silhouette with contemporary styling, the Chrome Riding Shoes are equipped with integrated ankle protectors, with the shoe's qualitative and durable OrthoLite® insock delivering enhanced comfort and breathability. The sole construction is based on the latest Alpinestars advanced urban shoe development to provide a perfect casual comfort with the guarantee of a high level of protection thanks to the Alpinestars Transversal Protection Frame (TPF), which is made from lighter PA materials, while an intuitive elasticated closure at the top of the shoe helps to facilitate the fast closure of the shoe and hold the lace loops and avoid the flap or get hooked on foot rest. 1. Split suede construction for street style that performs in everyday use.2. Alpinestars advanced urban sole for walking comfort, with the TPF delivering protection.3. Quick action upper shoe elasticated closure for ease of use, an optimized, secure fit and fast entry.4. OrthoLite® insock for high levels of breathability.

Key Features

- Lightweight upper combining split suede for durability and comfort.
- Dual density ankle protectors with heel and toe reinforcements for enhanced protection.
- Advanced rubber compound cup sole with PU mid sole for the optimal blend of comfort, grip and durability.
- Soft mesh on rear collar area for enhanced rider comfort.

RIDE 63 CANVAS

RIDE SHOE

PRICE: \$249.99

An everyday street riding shoe optimized for leisure riders, the lightweight Ride-63 Canvas Shoe is Alpinestars take on casual skatewear in a package optimized for comfort, on and off the bike.

KEY FEATURES

Casual Style: Slim profile and compact design for a laid-back, casual vibe.

Instant & All-Day Comfort: Advanced urban sole provides immediate comfort; ideal for daily wear on and off the bike.

Targeted Comfort & Breathability: Open-cell foam with varying thicknesses in the shift pad, ankle, and collar zones ensures optimal comfort and airflow.

Maximum Airflow: Mesh lining for superior breathability.

Enhanced Durability & Comfort: Anti-slip micro-suede on the heel adds durability and comfort.

Optimized Shifting Performance: Shift pad designed per shoe; left shoe engineered for gear shifts.

Secure & Easy Closure: Eight-hole high top with classic lateral laces ensures a secure fit.

CONSTRUCTION

Lightweight Flexibility & Street Style: Canvas upper and sides provide flexibility, a lightweight feel, and a premium street aesthetic.

Enhanced Durability & Comfort: Split suede heel sections for long-lasting durability and comfort.

Flexible & Durable Toe Protection: Leather Nubuck toe offers protection without compromising flexibility.

Optimized Grip on Footpegs: Lightweight, oil-resistant vulcanized rubber sole with textured grip ensures control on footpegs.

All-Day Cushioned Comfort: PU midsole with integrated heel disc delivers cushioning and shock absorption.

Cool & Lasting Interior Comfort: Removable OrthoLite® insock prevents overheating while providing long-lasting comfort.

Engineered for Riding & Walking: Dual-layer PP insole blends flexibility, durability, and walking comfort.

No-Slip Lace Ends: Rubberized lace tips improve grip and ease lacing.

PROTECTION

Double-density TPU ankle protectors between the upper and lining balance protection and flexibility.

Ankle discs on medial and lateral sides provide discreet protection.

Alpinestars Transversal Protection Frame (TPF) safeguards the foot while supporting flexion for walking comfort.

Reinforced internal toe box and heel counter enhance ergonomics and protection.

Open-cell foam padding in shift pad, ankle, and collar zones ensures superior breathability.

CE marked, compliant with EN13634:2017 for protective footwear.

RIDE SHOE

PRICE: \$299.99

An everyday protective street riding shoe with a unique heritage racing style, the lightweight Stated Flair Shoe is Alpinestars modern take retro streetwear styling casual skatewear in a package optimized for immediate comfort for commuting and leisure riders, on and off the bike.

KEY FEATURES

Enhanced comfort: Advanced urban sole for immediate comfort as soon as the shoes are worn; ideal for everyday use, on and off the bike.

Heritage aesthetic: Worn effect applied by hand for an authentic 'racing heritage' patina.

Slim, high top design: Compact profile, nine-hole high top with a classic lateral lace system and lateral zip closure for a secure closure and ease of use.

Strategic protection: Ankle disk on both medial and external side, TPF transversal protection, and reinforced shifting area.

CONSTRUCTION

Leather upper for superior abrasion resistance, light weight and a premium 'street' aesthetic. Leather Nubuck ankle and heel section for flexibility and durability in a key area.

Lightweight, oil-resistant vulcanized rubber compound urban sole with textured grip provides optimized grip and contact on the bike's footpegs.

Features a lightweight PU midsole with an integrated heel disc that provides excellent all-day underfoot cushioning and shock absorption.

Removable OrthoLite® insock provides long-lasting comfort and prevents overheating thanks to the Open Cell PU compound.

Dual layer, PP insole for the optimum blend of flexibility, durability and walking comfort.

Lace tip is finished in color contrasting rubber for enhanced grip with the fingers.

PROTECTION

Double density TPU ankle protectors are applied between the upper and the padded lining for the optimum blend of protective performance and flexibility.

Ankle discs are included on the medial and external side for effective but discreet all-around ankle protection.

Alpinestars Transversal Protection Frame (TPF) protects the foot while delivering the necessary support on the footrest without compromising the front foot flexion for superior walking comfort. TPR toe reinforcements for enhanced structural stability and abrasion resistance.

Internal toe box and heel counter reinforcement is layered under the upper for more ergonomic design and protection.

According to European statutory law, the CE mark is a conformity requirement for the marketing of this product. The following standards apply: CE EN13634:2017.

PRIMER

RIDE SHOE

PRICE: \$289.99

Description

A protective riding shoe which can be worn off the bike casually for off bike urban activities. The Primer boasts a causal last which gives it an excellent spongey underfoot feel for all-day comfort.

Construction

A CE-certified riding shoe which can be worn off the bike casually for off bike urban activities. The Primer boasts a causal last which gives it an excellent spongey underfoot feel for all-day comfort.

Snug fit coupled with ample inner volume creates a shoe which offers exceptional all-round foot comfort.

Flex grooves on foot front offer enhanced levels of flex while walking.

Oil resistant dual rubber compound for optimized grip on unclean/ slippery surfaces.

The increased medial sole edge radius enables easy movement on the bike's pegs.

Protection

Open cell PU foam ankle protector for additional protection.

CE-certified TPU full length plate for protection and improved foot comfort.

Outsole has an asymmetric stud configuration which provides excellent levels of grip and high abrasion resistance.

Fore foot and rear foot bumpers for added stability, protection and durability.

Key Features

Open Cell PU removable Ortholite technical insock for easy step in and enhanced comfort.

Open cell PU polyurethane compound ensures high levels of breathability, thus reducing overheating when worn.

Nubuck leather quarters on upper for feel, stability and enhanced levels of abrasion resistance.

Tongue has been designed to remain in position when riding for a snug, secure fit.

Asymmetric rubber layer on fore foot for additional durability in the gear shift area.

Internal EVA patch material between outer and inner materials reduces pressure on foot in the gear shift area for optimized levels of comfort.

CR-X DRYSTAR®

RIDE SHOE

PRICE: \$269.99

Description

A protective riding shoe with unrivalled off-the-bike, all-day walking comfort. The CR-X boasts a running shoe last which provides a 'snug' fit coupled with 'ample inner shoe volume' to ensure good all-day foot comfort, while the Drystar® waterproof and breathable membrane guarantees effective all-weather performance.

Description

Lightweight inner bootie with minimal construction design for a comfortable, glove-like fit.

Tongue with bellows construction has been designed to remain in position when riding for a snug, secure fit.

Gear shift zone features a highly abrasive-resistant TPU layer for enhanced durability.

Internal EVA layer sandwiched between outer and inner materials reduces pressure on the foot in the gear shift area, thus ensuring superior rider comfort.

Asymmetric outsole stud configuration provides excellent levels of grip and abrasion resistance.

Oil resistant dual rubber compound provides optimized grip on unclean/slippery surfaces.

Removable Ortholite insock provides long lasting comfort and prevents over heating thanks to the Open Cell PU compound.

Key Features

Full-length TPU CE-certified inner sole plate for superior riding protection and a dynamic heel-to-toe transition when walking.

According to European statutory law the CE mark is a conformity requirement for the marketing of this product. The following standards apply:

CE EN13634:2017.

Drystar® membrane offers effective weather protection in wet conditions.

Hidden asymmetric lateral and medial TPU ankle discs for effective but discreet ankle protection.

Protection

Lightweight inner bootie with minimal construction design for a comfortable, glove-like fit.

Tongue with bellows construction has been designed to remain in position when riding for a snug, secure fit.

Gear shift zone features a highly abrasive-resistant TPU layer for enhanced durability.

J-6 WATERPROOF RIDE SHOE

PRICE: \$269.99

A riding shoe that looks like a sneaker, the J-6 Waterproof Shoe has all the safety features of a motorcycle boot. Constructed from a luxurious and high quality leather, the shoe has a waterproof membrane and an advanced rubber sole for maximum durability and grip. It is also equipped with inner ankle and heel protection to provide cushioning and impact absorption, making this shoe perfect on the bike and for everyday use.

Key Features & Benefits

Premium upper using full-grain leather and suede for durability, style and street-ready aesthetics.

100% waterproof membrane built into the chassis to keep feet dry during wet commutes.

Dual-density, ergonomically derived ankle & heel protectors (MX-inspired) for ride-specific impact zones without bulk.

Internal toe box and heel counter reinforcement beneath the upper for enhanced structural integrity & longer wear.

Advanced rubber cup-sole (vulcanised) combined with a reinforced mid-sole for grip, stability and foot-peg compatibility.

Removable, anatomically-profiled EVA & Lycra® footbed for under-foot comfort, walking ease, and daily wear capability.

Leather tongue & collar construction plus metal eyelet lacing for secure, premium fit and finish.

Certified Category 2 to CE 89/686/EEC standards.

Construction & Materials

Upper: Full-grain leather + suede panels

Waterproofing: Fully integrated membrane

Sole: “Cup” style vulcanised rubber compound with moulded upper connection

Footbed: Removable EVA & Lycra

Reinforcements: Internal toe & heel, mid-sole support

Certifications: CE Category 2

ALPINESTARS 1-PIECE LEATHER SUITS

ALPINESTARS.COM

RACING ABSOLUTE V2

1 PC LEATHER SUIT

PRICE: \$ 4,499.99

Description

The Racing Absolute v2 is a professional-grade racing suit featuring the latest, lightest materials and technologies used by MotoGP and WorldSBK riders. Made with full kangaroo leather, including dual layers in high-abrasion areas like elbows, forearms, seat, hips, and back, it also includes Kevlar®-reinforced stretch inserts in the crotch, inner arms, and armpits for added durability. The bonded Kevlar® Grid enhances cut, tear, and abrasion resistance while reducing heat transfer during friction from a slide. The suit incorporates A-CS®Tech (Alpinestars Composite Stretch technology), replacing leather accordion panels in key areas like the side torso, shoulder blades, and upper knees. This technology increases breathability, comfort, and movement, while being 9% lighter than leather. A-CS®Tech also improves tear resistance by 248% over standard racing stretch fibers and 570% over leather. For further weight reduction and breathability, Matryx® material is used on the lower legs. Kevlar®-reinforced stretch panels in the inner arms, crotch, back of the legs, collar, and pectoral areas offer high elasticity and increased protection. The suit also features Schoeller®-Keypotec seam reinforcements at the elbows and knees, GP DFS external sliders on the shoulders, knees, and elbows, GP-R PRO CE Level 2 armor in the shoulders, elbows, forearms, and knees, and CE Level 1 Bioflex racing hip protectors. The Racing Absolute v2 is Alpinestars' top-of-the-line MotoGP-level suit.

Construction

The Tech-Air® Ready, GP Plus v4 Leather Suit blends Flex Plus Racing bovine leather, A-CS®Tech, Matryx®, HRSF, and GP DFS sliders to deliver unmatched comfort, flexibility, and fit.

Key Features

Tech-Air® Ready with left arm slot for the Tech-Air® 10 LED display

Localized perforation on full front panels for ventilation

GP Aero Back Hump for improved aerodynamics

GP DFS external sliders on shoulders, knees, and elbows

Replaceable GP-R PRO knee sliders

Protection

Fully CE-certified to Category II EN 17092-2:2020 AAA class

Compatible with Nucleon KR-R and KR-R CELL back protectors (available as upgrades)

GP-R PRO CE Level 2 armor in shoulders, elbows, forearms, and knees

Bioflex (Racing version) CE Level 1 hip protectors

GP TECH V5

1 PC LEATHER SUIT

PRICE: \$ 3,499.99

Description

Alpinestars' new GP Tech V5 1PC Racing Leather Suit uses rider feedback to deliver race-grade performance, protection, and comfort. Tech-Air® 10 ready, the suit ensures superior mobility and ventilation through advanced materials: MATRYX® ultra abrasion-resistant, highly breathable zones; Cool-iR Tech treatment to prevent heat build-up; and Kevlar® net bonding for heat transfer reduction.

Construction

Kangaroo leather in high-flex zones (arms, hips, abdomen) and race-grade bovine leather provide the ideal balance of weight savings, performance, and comfort. Extended Kevlar® stretch panels on the chest, arms, crotch, and back legs enhance flexibility and strength. MATRYX® panels on the thigh, abdomen, chest, and back hump deliver ventilation and superior tear and abrasion resistance while remaining thin and lightweight, with Kevlar® for heat transfer protection. Made with PFAS chemicals.

Protection

Engineered for top-level race protection, the suit is Tech-Air® ready and accommodates the Tech-Air® 10 Airbag System with extended hip protection. Fully CE-certified to Category II EN17092 AAA standards. Kevlar® is a trademark of DuPont affiliates used under license by Alpinestars.

Key Features

- MATRYX® lower leg with PU coating from MotoGP for lighter weight, ventilation, and mobility.
- Slot on left forearm for Tech-Air® 7 Airbag LED display.
- Cool-iR Tech reflects infrared rays to regulate body temperature.
- Race fit with pre-curved body, arms, and knees.
- GP DFS armor for superior impact and abrasion resistance with friction control.
- Replaceable elbow sliders.
- Internal GP-R Lite armor offers comfort and extended protection in key zones.
- Bio-Flex Race hip armor for impact protection.
- Strategic perforations for airflow.
- Zippered detachable comfort liner with Polygiene® treatment for freshness.

GP PLUS V4 SPRINT

1 PC LEATHER SUIT

PRICE: \$ 2,499.99

Description

Developed using extensive racing feedback and engineered with a focus on adaptability, comfort, and freedom of movement, the lightweight GP Plus V4 Sprint 1PC Leather Suit is designed to deliver race-grade technology, performance, protection, and comfort. Fully Tech-Air® ready, this suit allows seamless integration of the Tech-Air® 7x Airbag System and can also accommodate the additional Tech-Air® 7x sleeve display and the Tech-Air® 10 wireless display.

Key Features

Flex Plus 'racing-grade' leather features dual layers in exposed areas for enhanced durability. Soft and supple, this premium bovine leather delivers outstanding abrasion resistance while remaining highly flexible and adaptive.

Alpinestars Composite Stretch (A-CS®) technology on the back panel ensures exceptional breathability, comfort, and freedom of movement. A-CS® Tech is not only lighter and more compact than traditional leather accordion panels—approximately 9% lighter—but also provides superior stretch performance with 30% elongation. Additionally, it offers a remarkable 288% increase in tear resistance compared to HRSF (Hyper Resistant Stretch Fiber) and a 600% improvement in cut resistance over leather.

Fully perforated leather panels further enhance airflow and breathability, ensuring optimal cooling performance.

Construction

HRSF (Hyper Resistant Stretch Fabric) for high abrasion and tear resistance, and exceptional freedom of movement.

MATRYX® on the shin is engineered to offer maximum resistance-to-weight ratio together with high air permeability and flexibility, with engineered zoning to boost the performance where needed.

Aramid reinforcements at the elbow flexion zones for additional strength in a key area.

Race fit – highly pre-curved body, arms and knees for enhanced performance.

Incorporates Alpinestars 'Race' spec Supertech R10 aero hump. Designed and engineered to work in conjunction with Alpinestars Supertech R10 helmet for optimum streamlining and aerodynamic performance when tucked in a racing crouch.

Protection

Race spec GP-R armor on the elbow, knee, and shin offers extended coverage for additional protection in key zones.

Race-proven GP DFS sliders with removable elbow sliders for effective friction control.

Nucleon Race shoulder armor for superior impact protection and abrasion resistance.

According to European statutory law the CE mark is a conformity requirement for the marketing of this product. The following standards apply: Fully CE-certified riding garment to CE – Category II EN17092 standards – AAA Class.

Equipped with Nucleon PLASMA Pro armor, the suit offers exceptional protection.

Key Features

1.3mm Race-spec bovine leather with dual layers in critical areas for flexibility and abrasion resistance.

Nucleon PLASMA Pro CE Level 2 armor: eco-friendly, lightweight, and breathable, offering class-leading force dispersion, flexibility, and comfort.

Supertech R10 aero hump designed for optimal aerodynamics when paired with the Alpinestars S-R10 Helmet.

Tech-Air® Compatible: Compatible with Tech-Air® 5, Tech-Air® 10, and the new Tech-Air® 7x Airbag System.

Ultra-vented design with perforations across the torso, thighs, and arms for maximum airflow and breathability.

Pre-curved fit with extended leather accordions at the shoulder blades, lower back, and knees for enhanced race fit.

Kevlar® grip zone on the inside of the knee for optimal bike feel and contact.

Replaceable GP knee sliders made from a durable PU compound for exceptional feel and longevity.

Construction

Constructed from 1.3mm race-spec bovine leather, with dual layers in high-stress areas for durability and flexibility.

Aerodynamic Supertech R10 aero hump engineered for streamlined racing performance in tandem with the S-R10 helmet.

Hyper Resistant Stretch Fabric (HRSF) at the crotch, back leg, and inner arms for added flexibility and abrasion resistance.

Internal suspender system for comfort when off the bike, and extended leather accordion panels for improved mobility.

Seamless cuff and collar construction with synthetic suede for enhanced rider comfort.

Protection

CE Level 2 Nucleon PLASMA Pro armor on elbows, shoulders, knees, and shins, offering superior adaptability and ventilation.

Nucleon PLASMA Pro Knee Protector provides extended coverage for optimal knee and shin protection, designed using advanced body mapping.

Optional CE Level Nucleon PLASMA Race Chest and Full Back Protectors for additional protection.

Dual density GP DFS armor in shoulders and knees, with replaceable elbow sliders for enhanced friction control.

Tech-Air® 7x Compatible with optional LED display and Tech-Air® 10 Bluetooth display pocket.

CE-certified to Category II EN 17092-2:2020 AAA class standards.

GP FORCE V2

1 PC LEATHER SUIT

PRICE: \$ 1,499.99

Description

The GP Force V2 1PC Leather Suit is optimized for trackday and performance riding, and is engineered to deliver protection while delivering optimal levels of comfort, freedom of movement and high levels of ventilation. Tech-Air® 7X compatible, this aggressively styled suit is perfect for riders of all abilities.

Features

Comfort and versatility: Performance-driven silhouette is engineered with a comfort-orientated fit for superior versatility and practicality. Protective: Soft bovine leather construction with dual layers in the exposed areas for superior abrasion resistance, reinforced with DFS lite (Dynamic Friction Shield) at the shoulders and knees. Tech-Air® compatible: engineered to be seamlessly paired with the Tech-Air® 7x racing airbag. Optimized for airflow: Perforated leather chest, back, sleeve and leg panels for maximum airflow and ventilation. Enhanced mobility: HRSF (High Resistant Stretch) panels under the arms, on the shoulder blades, on the back of the legs and the crotch area for an optimized fit while delivering superior movement for optimized rider mobility. Superior aerodynamics: The speed hump is engineered for use with Alpinestars S-R10 helmet for reduced drag, enhanced stability and superior aerodynamic performance. Sport fit: Leather accordion panels on lower back, shoulders and knees for additional stretch and an optimized sport fit.

Protection

Nucleon PLASMA LT CE Level 1 elbow and knee armor for the optimum blend of adaptability, flexibility, breathability and impact dissipation.

Low profile Nucleon Flex Plus CE Level 1 shoulders and Nucleon Bio-Flex CE Level 1 hip armor for effective impact control.

Integrated DFS (Dynamic Friction Shield) Lite shoulder and knee armor for superior friction control.

Tech-Air® 10, Tech-Air® 7x and Tech-Air® 5 PLASMA ready.

According to European statutory law the CE mark is a conformity requirement for the marketing of this product.

The following standards apply: Fully CE-certified riding garment to CE – Category II prEN17092 standards – AA class.

Construction

Hook and loop neck closure with the large MotoGP inspired tab for a secure closure.

Hook and loop cuffs with a zippered sleeve on the forearm for ease of use.

Soft touch synthetic suede collar for superior rider comfort.

Replaceable aerodynamically-optimized GP Plus knee sliders.

YOUTH GP PLUS V2

1 PC LEATHER SUIT

PRICE: \$ 749.99

Description

The Youth GP Plus V2 1PC Leather Suit is a performance trackday suit specifically engineered and optimized for younger riders, delivering premium protection, comfort, and freedom of movement without compromising safety in a gear set fit for mini champions.

Key Features

- Extensive accordion stretch leather panels help movement and comfort on the bike.
- Removable inner mesh liner for breathability and comfort. Liner is washable.
- Soft-touch 3D textured fabric collar construction for comfort.
- Stitched leather graphic details for unique styling.
- Back hump is aerodynamically sculpted for superior air flow and performance at high speeds

Construction

- Constructed from premium 1.3mm bovine leather for comfort and abrasion resistance.
- Polyamide stretch fabric panels on sleeves, crotch and chest further improve fit and feel.
- Replaceable PU Sport knee sliders incorporate hook and loop grip for customized and secure fitment.
- Pre-curved sleeves and leg construction offers fit and comfort in the natural riding position.
- Strategically positioned localized perforations offer high levels of ventilation.

Protection

- Integrated PE foam padding on the chest, hips and coccyx enhances fit and comfort.
- Suit can accommodate Nucleon KR-Y Youth Protector as accessory upgradable.
- External polymer shoulder protectors feature injection-molded dual density TPU shells and are backed by foam padding for comfort.
- Alpinestars race-derived, CE-approved internal elbow, shoulder, knee and tibia protectors.

GP FORCE CHASER

1 PC LEATHER SUIT

PRICE: \$ 1,399.99

Description

The GP Force Chaser Leather Suit is constructed from bovine leather for unsurpassed abrasion and tear resistance. Fully optimized for use with or without Tech-Air® 5, Alpinestars world leading electronic Airbag Safety System, the GP Force Chaser Leather Suit incorporates Alpinestars GP protectors for effective impact protection and external sliders at the joints for unparalleled abrasion resistance.

Construction

Stretch panels on abdomen, under the arms, on the arms, crotch and back of leg for an optimum high performance riding fit.

Aerodynamic back hump is ventilated for maximum airflow.

Removable and replaceable Sport slider offers superior durability and feel.

Calf expansion panel with stretch ribs for a custom fit.

Chest pad compartment designed to take Alpinestars CE-certified Nucleon chest pads.

Made with PFAS chemicals

Protection

Bovine multi-panel construction for strength, comfort and superior abrasion resistance.

GP protectors on the elbow, shoulder, knee and tibia for effective impact protection.

DFS Lite protector on the shoulder for additional protection against abrasion in a key area.

According to European statutory law the CE mark is a conformity requirement for the marketing of this product. The following standards apply: Fully CE-certified riding garment to CE – Category II prEN17092 standards – AA class.

Key Features

Comes fitted with Alpinestars Nucleon Bio-Flex hip protectors.

Tech-Air® 5 ready; Tech-Air® is the world's first completely electronic, self-contained, full independent upper body motorcycle airbag system with no bike-to-rider set-up configurations required.

Strategically positioned accordion stretch panel inserts have been designed to accommodate Alpinestars Airbag System, allowing expansion when the airbag inflates but also offering a high level of anatomical performance and a superior fit when riding without the system fitted.

Inner knee suede reinforcement for grip on the bike.

Perforated leather panels are strategically positioned to offer excellent levels of cooling airflow and comfort.

ALPINESTARS MOTORCYCLING

MISSILE V3 IGNITION

LEATHER JACKET

PRICE: \$ 999.99

Description

The Missile Ignition v3 Leather Jacket is a top-level racing sport jacket derived from MotoGP, incorporating advanced racing technology for the ultimate in protection, performance, comfort, and style. Its new construction features a 7cm slim sport Aero-hump that fits perfectly with Alpinestars' S-R10 road racing helmet, making it ideal for riders on super naked and sport bikes. Packed with protective technologies, the jacket includes seamless DFS phantom black shadow TPU shoulder protectors and Alpinestars Nucleon PLASMA Pro Level 2 armor on shoulders and elbows. With a layered upper arm design, it offers an optimized aerodynamic shape perfect for racing. Engineered for the highest level of active race protection, the jacket is Tech-Air® Ready and compatible with the new Tech-Air® 7x Airbag System. The Missile v3 Leather Jacket's modern sport design delivers a striking racing-inspired aesthetic – the perfect jacket for riders seeking top racing technology.

Key Features

- Extended technical stretch panels on the chest, upper back, inner arms, armpits, and waist with PU reinforcements on back panels for optimal riding comfort.
- Detachable thermal liner (80g body/60g sleeves) for warmth on cooler days at the track or road.
- New seamless suede and PU collar and wrist hem for lightweight comfort.
- Race fit with pre-curved arms for enhanced performance and freedom of movement.
- Premium bovine race leather for superior abrasion resistance.

Construction

Constructed from premium bovine race leather for superior abrasion resistance, with HRSF stretch inserts on the chest, arms, shoulders, upper back, and waist, plus PU reinforcement on back panels for flexibility and comfort. Localized perforations on the lower front, back, and sleeves enhance ventilation for warmer days. Features include built-in front flap closure, hidden laser-cut hand pockets, waterproof inner compartment, fixed mesh liner with internal pockets for optional chest and back protectors, pant connection zipper for secure fit and wind protection, and extended back coverage.

Protection

Tech-Air® Ready and compatible with Tech-Air® 7x. Nucleon PLASMA Pro Level 2 armor on shoulders and elbows offers exceptional flexibility, breathability, and impact protection, developed with body mapping technology for optimal coverage. DFS armor provides superior impact and abrasion resistance with friction control. Chest and back compartments fit optional Nucleon inserts. CE-certified: EN17092-3:2020 AA Class | EN1621-1:2012 Level 2.

GP PLUS R V4 RIDEKNIT

LEATHER JACKET

PRICE: \$ 899.99

Description

The GP Plus R v4 RIDEKNIT® Leather Jacket is optimized for superior freedom of movement and rider comfort, and features extensive race-derived features and materials, including a dedicated 'Sport' fit with pre-curved arms for maximum riding performance, and race-proven protection on the shoulders and elbows.

Key Features

Extensive technical stretch panels under the arms, on the inner arms, and around the neck for an optimized fit.

Dual density DFS shoulders for superior friction control.

Nucleon Flex Plus shoulder armor for superior impact protection.

Tech-Air® 5 and Tech-Air® 3 Ready.

Localized perforation zones on the chest and sides for maximum airflow.

Stretch under the arms and on the inner arms for an optimized sport fit.

Stretch, soft feel and ergonomic collar for superior rider comfort.

Hook and loop neck closure with the large built-in flap for a secure closure.

Ergonomic hook and loop cuffs with a zippered sleeve on the forearm for ease of use.

Two zippered external side pockets for practical and secure storage.

Cut longer on the back for greater coverage in the riding position.

3/4 waist zip for a secure connection with Alpinestars pants.

Hook and Loop adjustable waist for an optimized fit.

Mesh liner for optimized.

Protection

GP Lite elbow armor for impact protection in a key area.

Mesh interior comfort liner with pockets to accommodate a back protector or a split chest protector.

According to European statutory law the CE mark is a conformity requirement for the marketing of this product. The following standards apply: Fully CE-certified riding garment to CE – Category II EN17092-3: 2020 standard – AA Class.

Construction

Alpinestars composite stretch technology, A-CS® Plus, stretch panels on the torso for exceptional breathability, comfort, and freedom of movement, as well as delivering a lighter weight and a lower profile than a traditional leather accordion panel (the A-CS® Plus panels are about 9% lighter than leather panels). Another key advantage of using A-CS® Plus is its superior stretch performance; A-CS® Plus has about 30% elongation, and offers an increase in tear resistance of 300% compared to HRSF (Hyper Resistant Stretch Fiber), and an increase in cut resistance by 600% versus leather.

1.3mm 'Race' grade leather construction for the optimum blend of abrasion resistance and comfort.

RIDEKNIT® engineered inner arms; RIDEKNIT® combines high abrasion and tear resistance with high flexibility, comfort and mechanical stretch while still delivering superior comfort and high levels of breathability.

LEATHER JACKET

PRICE: \$ 879.99

Description

The Dyno Leather Jacket is Alpinestars modern interpretation of a heritage jacket, and combines premium leather and a regular fit to create a jacket that looks great, on and off the bike, in any setting. This jacket is also equipped with a detachable thermal vest, which adds to its performance and versatility.

Features

The leather is dip dyed, and the oils used during this process results in a more natural finish with superior overall softness and a softer feeling against the skin.

Detachable thermal vest with 80g insulation at the front for effective cold weather performance.

Shoulder and elbow armor protectors are engineered with a low profile for a more tailored fit.

Low profile elbow protectors for a more stripped back and elegant aesthetic.

Tech-Air® 3 Ready.

Protection

According to European statutory law the CE mark is a conformity requirement for the marketing of this product. The following standards apply: Fully CE-certified riding garment to CE – Category II EN17092-4: 2020 standard – A Class.

Nucleon Flex Plus CE Level 1 rated shoulder and elbow armor for superior impact protection.

Construction

Constructed from 1.0-1.2mm bovine leather for the optimum blend of light weight, thinness, suppleness, and abrasion resistance.

Made with PFAS chemicals

GP FORCE AIRFLOW

LEATHER JACKET

PRICE: \$ 729.99

Description

Force Airflow Leather Jacket is the new airflow version of the existing GP Force Leather Jacket. Featuring a fully perforated chest and back, soft buffalo leather main construction with extensive polyamide stretch panels, the jacket is also protective with its external DFS Lite shoulder sliders and internal Nucleon Flex Pro CE Level 2 armor. Featuring a removable windbreaker liner, the GP Force Airflow Jacket can be easily adapted to the weather conditions. A highly versatile and Tech-Air® Ready, sport leather jacket, the GP Force Airflow is the perfect choice for every-day commuter riders living in mild and warmer climates with large temperature changes.

Construction

Buffalo soft leather construction with perforated front and back panels.

Extensive stretch material construction offers an optimum, high-performance riding fit and makes the GP Force Airflow an excellent jacket to pair with the Tech-Air® 5. The jacket allows for expansion when the airbag inflates, while at the same time also offers a high level of anatomical performance and a superior fit when riding without the system fitted.

Key Features

The GP Force Airflow Leather Jacket is Tech-Air® Ready and can accommodate the Tech-Air® 5 Airbag System for complete upper body protection.

Strategically positioned accordion stretch panel inserts and extensive polyamide stretch panels on the abdomen, under the arms, on the inner arms, as well as on the chest, back, sides, and pectoral areas.

Removable windbreaker liner provides versatility and adaptability to the conditions.

Nucleon Flex Pro Level 2 internal armor for effective impact protection.

External DFS Lite protectors on the shoulders for additional protection against abrasion in key areas.

Waterproof compartment.

Protection

According to European statutory law the CE mark is a conformity requirement for the marketing of this product. The following standards apply: Fully CE-certified riding garment to CE – Category II EN 17092-3:2020 standards – AA class.

CE Level 2 EN 1621-2:2014 Alpinestars Nucleon back protector, available as an upgrade.

DUSK AIRFLOW

LEATHER JACKET

PRICE: \$ 699.99

Description

Bridging the gap between a race-focused jacket and a traditional leather jacket, the Dusk Airflow Leather Jacket is engineered for maximum airflow and is equipped with the latest generation of Alpinestars Nucleon PLASMA armor for optimum protection.

Key Features

Extensive perforations on the front and back deliver maximum airflow and superior breathability.

Alpinestars Nucleon PLASMA technology delivers superior impact absorption, energy dispersion, and enhanced comfort in a package that is ultra-breathable, while remaining highly adaptive to the rider's body and offering a premium, tailored fit. This 'custom' fit improves the overall effectiveness of the protection, as it minimizes any potential gaps that could leave vulnerable areas exposed, while promoting freedom of movement.

Construction

Constructed from soft and supple 1.1mm-1.3 mm bovine leather for the optimum blend of comfort and abrasion resistance.

Multi-panel 3D construction for an enhanced ergonomic 'Comfort Sport' fit.

Leather stretch accordion extends from the armpit to the shoulder for superior comfort and freedom of movement.

HRSF (Hyper Resistant Stretch Fabric) stretch inserts for high abrasion and tear resistance, and exceptional freedom of movement.

Padded zones on the abdomen, biceps, lower back, and rear of the waist for additional comfort.

Waterproof internal compartment for safe and secure storage of essentials.

Protection

DFS shoulder and Nucleon Flex Plus Level 1 shoulder and Nucleon PLASMA Level 1 elbow armor, with external DFS shoulder protection for impact protection and friction control.

Performance multi-stitching in exposed areas for optimum abrasion resistance in key zones.

Tech-Air® Ready for use with all Alpinestars Airbag Systems.

According to European statutory law the CE mark is a conformity requirement for the marketing of this product. The following standards apply: Fully CE-certified riding garment to CE – Category II EN17092 standards – AA Class.

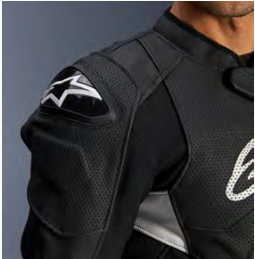

Ready to accommodate the regular and full length CE Level 2 Nucleon PLASMA Chest and Back inserts, and the Nucleon Flex Chest and CELL Back inserts.

GP FORCE V2 AIR

LEATHER JACKET

PRICE: \$ 699.95

Description

The GP Force V2 Leather Jacket is crafted from premium bovine leather for outstanding abrasion and tear resistance. Designed for both street and track riders, it's fully optimized for use with or without the Tech-Air® 5, Alpinestars' world-leading electronic Airbag Safety System. The jacket incorporates Alpinestars' GP protectors for impact protection and features external sliders at key areas for superior abrasion resistance.

Construction

Premium bovine leather main chassis for durability and rider comfort.

Strategically placed stretch panels on the chest, underarms, and back for a performance fit.

Aerodynamic back hump with ventilation for enhanced airflow at speed.

Removable and replaceable sport sliders on the shoulders for superior durability and feel.

Chest pad compartment designed to fit Alpinestars CE-certified Nucleon chest inserts.

Protection

Multi-panel leather construction for maximum strength and abrasion resistance.

GP protectors on shoulders and elbows for proven impact protection.

DFS Lite external shoulder sliders for additional abrasion protection in high-impact zones.

Fully CE-certified riding garment to CE – Category II EN17092 standards – AA class.

Key Features

Comes with Alpinestars Nucleon Bio-Flex back protector compartment and hip protector compatibility.

Tech-Air® 5 ready; the world's first fully electronic, self-contained airbag system requiring no bike-to-rider setup.

Accordion stretch panels designed to accommodate airbag expansion without compromising fit when not in use.

Perforated leather zones for excellent airflow and temperature regulation.

Waist adjustment and connection zipper for a secure fit with riding pants.

FASTER V3 AIR

LEATHER JACKET

PRICE: \$ 599.99

Description

A superbly styled sport riding jacket with premium leather and extensive HRSF stretch paneling for optimal abrasion resistance and mobility, the Faster v3 Airflow Leather Jacket combines leading protective performance features to deliver ultimate rider comfort. With its refined, reinforced sport silhouette, the jacket's construction uses dynamic lines and finishing details to create a modern, race-derived style.

Key Features

Highly durable, technical leather with multi-panel construction for strength, comfort, and superior abrasion resistance.

The Faster V3 Airflow Jacket includes strategically positioned arm perforations and perforated bovine leather on the front and back for excellent ventilation and cooling airflow.

Extensive HRSF stretch inserts on chest, back, abdomen, underarms, shoulder blades, and inner arms provide a high-performance fit and maximum freedom of movement.

Sport fit with pre-curved arms and ergonomic elbows for premium comfort.

Zippered torso vents for added airflow.

Hook waist adjustment for a custom fit.

New die-cut collar with synthetic suede inner lining for comfort.

Construction

Made from premium leather with multi-panel construction for strength, comfort, and abrasion resistance.

Localized perforations on arms and perforated leather front and back offer superior ventilation and airflow.

HRSF stretch inserts on chest, abdomen, underarms, back, and shoulder blades ensure freedom of movement and a performance fit.

Sport fit with pre-curved arms and ergonomic elbows for comfort.

Fixed mesh liner with internal pockets for optional chest and back protectors.

Built-in welded front flap closure at the top and wrists for secure fit.

Waterproof inner pocket.

Large zippered front pockets for storage.

Waist connection zipper for secure attachment to Alpinestars pants.

Elongated rear for added coverage when riding.

Made with PFAS chemicals.

Protection

Tech-Air® 5 and Tech-Air® 3 ready.

Integrated DFS GP Lite shoulder protectors for superior friction control.

Nucleon Flex Plus shoulder protectors for effective impact protection.

GP Lite elbow armor for added impact safety.

Complies with European PPE Regulation EN 17092-4:2020 A Class.

T-GP AIR

JACKET

PRICE: \$ 479.99

Description

The T-GP Air Jacket is a lightweight textile jacket optimized for airflow and breathability, offering sports riders race-derived protection, style and technical features in a jacket optimized for warm weather riding on the roads.

Construction

Multi-panel 450D polyfabric construction for strength, comfort, and excellent abrasion resistance

Large technical open-mesh panels for enhanced cooling airflow

Strategically positioned accordion stretch panel inserts designed to accommodate the Alpinestars Airbag System, allowing expansion during airbag deployment while maintaining a close, anatomical fit when riding without the system

Hook-and-loop neck closure with large MotoGP-inspired tab for a secure fit

Pre-curved elbow construction to reduce rider fatigue

Soft-touch synthetic suede collar and cuffs for improved rider comfort

Integrated waist adjustment flaps for an optimised performance fit

Internal and external pockets for real-world practicality

Key Features

Aerodynamic Alpinestars Racespec Supertech R10 aero hump, designed to work in conjunction with the Alpinestars S-R10 Helmet for optimal streamlining and race-focused aerodynamic performance.

Dual-density, racing-derived integrated Racing GP DFS (Dynamic Friction Shield) on the shoulders and elbows for superior friction control.

Performance sport fit with an elongated rear profile for improved coverage and enhanced wind protection in the riding position.

Laser-perforated panels combined with 2D and 3D mesh panels deliver superior airflow and ventilation.

Hidden, race-derived auto-lock wrist zips provide a secure, precise fit, prevent accidental opening, and are optimised for use with Alpinestars gloves.

Protection

Low-profile Nucleon Flex Pro CE Level 2 shoulder and elbow protectors for effective impact protection

Dual-density integrated Racing GP DFS (Dynamic Friction Shield) on shoulders and elbows for superior friction control

Tech-Air® 7x, Tech-Air® 5 PLASMA, and Tech-Air® 3 ready

Description

The Missile V3 Leather Pants feature a newly evolved, precise ‘flex fit’ design, with the pre-curved legs, and flex zones on the knee and waist delivering a close riding fit with plenty of stretch for optimal rider movement. Featuring a premium leather chassis for enhanced abrasion resistance and ergonomic stretch panels for comfort, these pants are also equipped with a large ventilation port on the knee for maximum airflow. These pants are Tech-Air® ready and can accommodate the Tech-Air® 10 Airbag System, complete with its extended hip protection.

Construction

Extended high rear waist construction provides greater overlap with the riding jacket.

Dual layers in exposed areas for additional abrasion resistance.

Premium leather main chassis constructed from 1.3mm genuine bovine leather.

Opening ventilation panel on knee delivers maximum airflow and can be secured in the open position; the knee is CE Certified, even when the panel is open.

Protection

According to European statutory law the CE mark is a conformity requirement for the marketing of this product. The following standards apply: Fully CE-certified riding garment to CE – Category II EN17092 standards – AA class.

Key Features

Featuring an engineered fit designed to deliver the highest level of active race protection, these pants Tech-Air® ready and can accommodate the Tech-Air® 10 Airbag System with its extended hip protection.

Comfort fit; design follows the contours of the knee for the optimal blend of comfort and freedom of movement.

‘High Flex’ design for an optimized fit and enhanced freedom of movement.

Accordion leather stretch zones above the knee offer improved flexibility.

Extensive stretch panels on calf and crotch area for improved fit and feel.

Pre-curved leg construction helps improve fit and reduce riding fatigue.

Strategically positioned ventilation on thigh for internal air cooling.

Waist connection zipper allows attachment to Alpinestars riding jackets

Hook and loop waist adjuster for secure and personalized fit.

Internal mesh lining with stretch panel inserts work in conjunction with outer stretch zones for freedom of movement.

Alpinestars GP-R Lite internal protection on knee.

Replaceable Sport knee sliders for excellent impact and abrasion resistance.

T JAWS V4 WP

WATERPROOF JACKET

PRICE: \$ 429.99

Description

The T-Jaws v4 Waterproof Jacket delivers a refined sport fit and 3D silhouette for superior riding comfort. Built from a mix of 600D and 450D poly fabrics, it provides durability, rider comfort, and waterproof protection for wet weather performance. Its abrasion-resistant shell combines advanced protective features with an aggressive, race-inspired style. A removable fleece-backed thermal liner adds warmth for cold mornings and evenings, making the T-Jaws v4 an ideal year-round choice for sport riders seeking a stylish waterproof textile jacket.

Key Features

- Multi-density shell: 600D/450D reinforced poly fabrics plus stretch softshell on the shoulder blades for comfort and movement
- Fixed waterproof membrane for reliable all-weather protection
- Removable fleece-backed thermal liner, 100g body / 80g sleeves, for warmth and comfort
- Zippered torso air vents direct airflow through all layers, ventilating the waterproof membrane

Construction

- Multi-density poly fabrics with stretch softshell on shoulders enhance movement and comfort
- Refined sport fit and 3D silhouette tailored for riding performance
- Fixed waterproof membrane ensures all-weather protection
- Removable fleece-backed thermal liner (100g body, 80g sleeves) for adaptable insulation
- Strategically placed torso vents channel air through layers for effective cooling
- Ergonomic collar with soft lining
- Adjustable cuffs and waist for a performance fit
- Fixed mesh liner with pockets for divided chest protector and back protector (optional extras)
- Waterproof inner pocket for secure storage
- Pant connection zipper prevents wind ingress
- Extended back for coverage in riding position
- New trims plus reflective detailing on back and sleeves

Protection

- Tech-Air® Ready
- Nucleon Flex Plus elbow & shoulder protectors (impact protection)
- GP Lite reinforced shoulders for added safety
- CE Category II PPE Regulation EN 17092 – A Class

VIPER AIR V4

JACKET

PRICE: \$ 399.99

Description

Engineered for superior airflow and adaptability, the Viper Air v4 Jacket is optimized for warm weather riding. Featuring a detachable windproof liner, this jacket can be quickly and easily adapted to a mid-season jacket, ensuring comfort and versatility in changing weather conditions.

Key Features

The Viper Air V4 Jacket features a 3D-shaped design that adapts to the rider's body for a superior fit, natural movement, and all-day comfort.

This innovative design not only elevates the jacket's aesthetic but also enhances freedom of movement for unmatched comfort and flexibility.

Strategically placed extra-large panels of tech mesh ensure optimal airflow and breathability, keeping riders cool and comfortable in warm conditions.

Equipped with Level 1 Nucleon Flex Plus armor at the shoulders and elbows, the Viper Air V4 offers maximum impact absorption while maintaining exceptional comfort, flexibility, and ventilation.

Construction

The Viper Air V4 jacket is engineered to provide optimal abrasion resistance and maximum airflow.

The laser-perforated 600D chassis delivers enhanced durability while still allowing air to pass through the main shell.

Ergonomically designed cuts at the wrist and lower hem ensure a snug and comfortable fit, allowing for unrestricted movement.

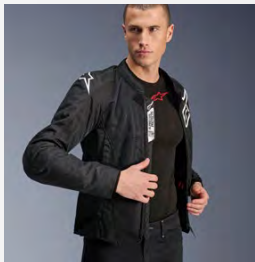

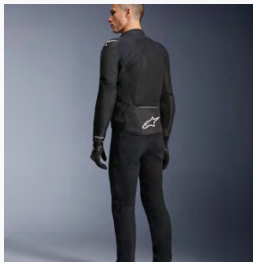

Waterproof inner compartment for safe and secure storage of essentials.

SMX AIR

JACKET

PRICE: \$ 429.99

PRICE: \$ 419.99

Description

The SMX Air Sport Jacket features a main chassis constructed from tech mesh on the rider's abdomen, back, and inner arms, paired with 450D polyfabric reinforcement on the outer arms and shoulders. The SMX Air also incorporates perforated 450D polyfabric on the upper chest for excellent levels of airflow during the warm, summer riding months. Extended polyamide stretch material has been incorporated on the rider's back, shoulders, and sides, with a high-density stretch material on the upper back. The stretch material provides an adaptive fit and a high level of freedom of movement, as well as offers the perfect expansion ability for use with the Tech-Air® 5 Airbag System. As the SMX Air Jacket has been designed to provide premium ventilation, the jacket also comes with a detachable windbreaker liner to help reduce airflow when it's not needed, offering optimal climate comfort and versatility. DFS Lite external shoulder sliders paired with Nucleon Flex Level 1 shoulder, elbow, and forearm armor together provide impact protection for the SMX Air Jacket, resulting in a CE level A rating overall. Derived from Alpinestars' MX DNA, the highly ventilated, SMX Air Jacket is the perfect choice for the everyday commuter and weekend rider looking for a versatile and protective street sport jacket for riding in warm climates.

Key Features

Tech-Air® Ready.

Strategic stretch inserts on side torso and upper back panel.

Ergonomic design for optimal sport movement and flexibility.

Detachable windproof liner.

Waist adjusters.

Waterproof compartment.

ZACA AIR

HOODIE

PRICE: \$ 449.99

Description

The Zaca Air Jacket is an ideal textile jacket for street and sport riders looking for a stylish, warm climate jacket with temperature adaptability that can perform in cooler and/or wet weather conditions. Blending a unique combination of 3D mesh with mechanical stretch, 450D polyfabric reinforcements, and stretch softshell inserts, the 3D mesh offers premium breathability on the full chest, back and inner arms. The 3D mesh has been combined with 450D polyfabric on the outer arms, shoulders, and sides for CE rated abrasion resistance. Stretch softshell inserts incorporated in the pectoral and chest areas, as well as in the shoulder blades and around the rider's collar provide for a perfect fitment for the Tech-Air® 5 Airbag System, as well as offer excellent levels of range of motion and freedom of movement. For additional protection, the Zaca Air Jacket has DFS Lite external shoulder sliders as well as Nucleon Flex Plus CE Level 1 rated armor on the shoulders, elbows, and forearms. Internally, the jacket sports a detachable 2L waterproof liner to use when the weather gets cooler as an additional windbreaker, and which is particularly handy for riders that get caught in the rain. The detachable hood comes with an air extraction channel on the top to allow airflow to pass through and prevent it from filling up and flapping around while on the bike. The Zaca Air provides a versatile, highly ventilated, and protective riding jacket for sporty street riders in need of optimal comfort on warmer days and complete body mobility and freedom of movement.

Construction

New inner construction for Nucleon protection insert upgrades and ready to accommodate the new long back protector insert.

Large 3D mesh panels with mechanical stretch.

450D polyfabric frame chassis.

Key Features

Tech-Air® Ready.

Stretch softshell inserts in key areas.

SMOKE GRAY

T-DYNO AIR JACKET

PRICE: \$ 399.99

DESCRIPTION

Introducing the T-DYNO Air Jacket, a lightweight and breathable modern classic textile jacket. Drawing inspiration from Alpinestars' rich heritage in crafting motorcycle riding equipment, this jacket seamlessly combines vintage design cues with modern innovation, offering a fusion of past, present, and future.

The T-DYNO Air Jacket embodies the timeless appeal of vintage motorcycle gear while introducing innovative materials and designs. Featuring extended 3D mesh on the yoke and sleeves, this jacket prioritizes breathability and airflow for maximum comfort during warm weather rides.

KEY FEATURES

Vintage-Inspired Biker Fit: The T-DYNO Air Jacket seamlessly blends heritage style with modern innovation, featuring vintage design elements like synthetic leather at the cuffs, for a timeless aesthetic. The jacket provides a biker fit that is shorter in length, offering a sleek appearance.

Airflow construction: The T-DYNO Air Jacket features extended 3D mesh panels on the yoke and sleeves, maximizing airflow and ventilation to keep riders cool and comfortable.

CONSTRUCTION

Durable Materials: Crafted from durable 450D polyester with stretch panels on the back shoulders and under the armpits, the T-DYNO Air Jacket prioritizes both style and functionality.

Enhanced Comfort: Featuring a soft comfort, inner collar, the TDYNO Air Jacket offers enhanced comfort during long rides. The waist adjusters allow riders to create a custom, tailored-fit.

Convenient Details: pant connection loops, and zippered front pockets offer convenient storage for essential items.

WP Pocket: Inner waterproof pocket for secure storage of personal items.

PROTECTION

CE Certified: Meets CE Class A certification standards for protective motorcycle apparel.

Nucleon Flex Plus Protectors: The jacket is equipped with Alpinestars Nucleon Flex Plus Level 1 shoulder and elbow protectors.

REVVED WR

JACKET

PRICE: \$ 349.99

DESCRIPTION

Gear up with confidence in the 2-season, Revved WR Jacket, where style meets functionality for the modern rider. Crafted with water-resistant materials, this jacket offers protection against unexpected showers while maintaining a sleek and stylish appearance. Designed with the rider in mind, the Revved WR Jacket combines classic biker details with sporty elements for a truly dynamic look on and off the road.

KEY FEATURES

DYNAMIC EMBROIDERY: Stand out from the crowd with our direct embroidery featuring a 3D effect in color contrast, adding depth and personality to your jacket.

WATER RESISTANT: Stay dry and comfortable in light rain with the Revved WR Jacket, perfect for unpredictable weather conditions. The jacket features a water-resistant pocket, providing added protection against moisture and humidity during rides.

LAYERING COMPATIBILITY: Designed for Spring/Summer climates, this jacket pairs effortlessly with hoodies or sweaters for added warmth on cooler days.

VINTAGE SNAP BUTTON CLOSURE: Experience a touch of nostalgia with our snap button closure, adding a retro vibe to your riding ensemble.

ADJUSTABLE DRAWSTRING BOTTOM HEM: Customize your fit with ease using the adjustable drawstring bottom hem, ensuring a snug and comfortable feel.

THUMB HOLE SLEEVE LOOP: Keep your sleeves securely in place with the elastic loop and thumb hole design, offering added convenience and comfort during rides.

CONSTRUCTION

Satin Material: Crafted from high-quality satin material, our Revved WR Jacket offers a luxurious feel and a sleek, glossy finish.

Sporty Silhouette: With a classic Coaches jacket silhouette, the Revved WR Jacket combines timeless style with modern design for a versatile look that transitions seamlessly from the road to casual outings. You can keep your collar in place with our hidden snap closure, always ensuring a polished and professional appearance.

Minimalist Aesthetic: Embrace simplicity with our jacket's minimalist aesthetic, featuring clean lines and a streamlined silhouette for a contemporary vibe. **WP Pocket:** Inner waterproof pocket for secure storage of personal items.

PROTECTION

Alpinestars Nucleon Flex Plus Protectors Included: Ride with peace of mind knowing that the Revved WR Jacket is equipped with Alpinestars Nucleon Flex Plus Protectors on the elbows and shoulders. These advanced Level 1 protectors offer superior impact protection while maintaining flexibility and comfort.

Certified Level A: Alpinestars Revved WR Jacket is certified as a CE Level A garment, meeting the highest standards of protection and safety for motorcycle apparel. This certification ensures that the Revved WR Jacket has undergone rigorous testing and meets strict criteria for impact protection, abrasion resistance, and ergonomic performance.

DICE JACKET

PRICE: \$ 449.99

Description

A modern interpretation of the classic field jacket, the Dice Jacket fuses rugged workwear aesthetics with motorcycle performance and street-ready style. Built from a stretch polycotton twill chassis with utilitarian construction, it brings Alpinestars' legacy into the present with refined utility and urban versatility. Layered utility pockets nod to vintage military and moto design, while pleated shoulders and an ergonomic fit ensure freedom of movement and premium comfort on the bike. With built-in armor and Tech-Air® compatibility, the Dice delivers next-gen impact protection in a jacket defined by timeless function and contemporary edge.

Key Features

- Workwear Style: A workwear-inspired silhouette with an ergonomic moto fit, delivering the function and comfort today's urban rider demands.
- Functional Design: Large double-entry pockets and heritage embroideries featuring the Alpinestars wordmark and Oscar spiral logo.
- Ergonomic Comfort: Pleated shoulders and an ergonomic cut enhance mobility and riding comfort.
- All-Day Utility: Two large front hand pockets and two chest pockets offer secure storage on the move and comfort off the bike.
- Heritage Accents: Reflective trims and a reversible snap button keep the collar secure while riding, reinforcing the vintage-inspired aesthetic.
- Everyday Comfort: Lightweight stretch polycotton twill provides breathability and flexibility.
- Protective Armor: Nucleon Flex Plus shoulder and elbow armor delivers premium comfort, airflow, and impact protection.

Construction

- Lightweight stretch polycotton twill with water-repellent treatment for durability and a soft hand feel.
- Premium finishes include decorative topstitching, metal eyelets, D-rings, branded zipper pullers, tape, and heritage patches inspired by traditional workwear utility.
- Waist and sleeve adjusters, plus an elasticated back panel, provide a customizable fit.
- Mesh cuff gussets enhance airflow and flexibility.
- Shoulder pleats improve rider mobility.
- Reversible snap secures the collar to prevent flapping while riding.
- Integrated pant connection loops ensure a secure jacket-to-pant fit.
- A waterproof inner pocket, two large zippered hand pockets, and two chest pockets provide secure storage for essentials.

Protection

- CE Certified Class A: Meets the highest safety standards as a CE certified A Garment, ensuring optimal protection and performance.
- Nucleon Flex Plus Level 1 Armor: Equipped with Nucleon Flex Plus Level 1 Protectors on the shoulders and elbows for essential impact protection.
