ALPINESTARS.COM

GP TECH V2

LEATHER GLOVES

PRICE: \$ 499.99

Description

A professional Racing glove engineered to deliver superior protection, the GP Tech v2 Glove guarantees enhanced control capabilities in the most demanding conditions thanks to its innovative seamless stretch back hand construction. There is also a stretch material built with Kevlar® stretch and leather backhand for optimal flexibility, freedom of movement, reduced fatigue and sensitivity and dexterity with the bike's controls. Another standout feature is the innovative over-injected, ergonomic, dual density, knuckle for enhanced protection against repeated impacts.

Construction

Kangaroo palm construction with stretch insert for additional abrasion resistance in a key zone.

Protection

The seamless over-injected dual density knuckle cup delivers Level 2 impact protection in a compact component, while also being flexible and allowing unobtrusive hand movements.

Innovative seamless, over-injected ergonomic knuckle for effective impact protection.

The all-new ergonomically-shaped knuckle protector delivers total coverage for enhanced protection.

The GP DFS cuff delivers impact protection and friction control in a dual density component that is lighter, smaller and ergonomically optimized for performance riding.

According to European statutory law the CE mark is a conformity requirement for the marketing of this product. The following standards apply: Fully CE certified motorcycling product: CE Level 2 KP.

Key Features

Minimal stitching increases comfort while reducing the risk of stitching failure in the event of mechanical stress.

External finger seams combine the perfect blend of feel and flexibility.

Unrivalled flexibility combined with precise and race-proven control.

Stretch backhand panel for flexibility, freedom of movement, and dexterity with the bike's controls.

ARshield layers on the backhand, landing zone and fingertips for additional protection.

Viscoelastic backhand /finger layer for protection against impacts.

New Cuff DFS.

Over injected fingertip sliders.

Dual closure system.

Palm slider.

Side hand reinforcement.

Alpinestars race finger bridge.

Accordion flexion zones on control fingers.

GP PRO R4

LEATHER GLOVES

PRICE: \$ 399.99

Description

The GP Pro R4 Gloves are a pure racing sport performance gauntlet glove with optimized material mapping to guarantee excellent fit and comfort, as well as the highest levels of protection. Constructed with premium materials, the gloves are equipped with Alpinestars Dynamic Friction Shield (DFS) knuckle and cuff protectors with advanced airflow ventilation and aramidic reinforcement to ensure the gloves are primed for superior trackday performance.

Key Features

- Impact absorbing layering on the finger, backhand, palm landing zone and side of the hand for additional coverage in key areas.
- Dual closure system with a wrist adjuster and cuff closure flap for security
- Knuckle panel perforated gusset for improved levels of hand ventilation
- Leather accordion paneling on the fingers, thumb, and backhand for an improved fit and comfort.
- Dual density DFS Race knuckle protector for maximum protection against repeated impacts with a soft mounting for enhanced rider comfort and an ultra-adaptive fit.
- The finger and knuckle protectors are contoured with stitched leather panels for superior safety while still being ultra-adaptive for enhanced comfort.
- Side reinforcements with palm hard slider and finger sliders for superior abrasion resistance and reduction in heat transfer.
- Aramidic lining on the backhand and landing zone for added protection.
- Finger bridge on third and fourth finger prevents finger roll and separation in the event of a slide.

Protection

- TPU finger protection for superior impact protection and abrasion resistance.
- According to European statutory law the CE mark is a conformity requirement for the marketing of this product.
- The following standards apply to this product: Category II EN 13594:2015, Level 1 KP.

Construction

- Constructed from a blend of bovine and goat leather on the backhand and kangaroo leather on the palm and fingers for superior performance and the optimal blend of softness, feel, and protection.
- Inner seam palm construction for superior levels of rider comfort.
- DFS Race cuff for high levels of abrasion resistance.

GP PLUS R V3

LEATHER GLOVES

PRICE: \$ 279.99

Description

The GP PLUS R v3 Gloves have been optimized for enhanced racing performance and track versatility, and feature new knuckle protectors and a full leather palm and top hand for superior abrasion resistance. The aramid stretch fabric cuff, derived from Alpinestars' premium Supertech Racing Gloves, provides a secure and comfortable fit, while the leather palm reinforcement enhances durability and safety. With a pre-curved design and racing-derived finger bridge, these gloves offer optimal ergonomics and control on the track.

Key Features

Engineered for optimal performance and breathability, these gloves feature strategically positioned perforations on the leather for enhanced airflow and breathability.

Integrated Alpinestars DFS (Dynamic Friction Shield) technology enhances protection by minimizing friction and abrasion in critical areas

Hybrid seam construction on the fingers ensures comfort and feedback, while also reducing material thickness for improved feel and control.

Construction

Strategically placed padding on the palm and thumb patch absorbs impact forces while providing additional comfort.

Alpinestars DFS (Dynamic Friction Shield) technology enhances comfort by minimizing friction and abrasion in critical areas. Additionally, extensive foam reinforcement on the top hand, cuff, palm, and fingers provides additional impact absorption and structural support.

Functional design elements include palm and thumb grips, a touchscreen-compatible area on the index finger, and wrist strap and cuff adjusters for a customized fit.

A pull tab in suede PU leather enhances ease of use.

Protection

TPU dual density knuckle protection.

TPU palm slider.

Soft cuff impact protection.

TPU finger sliders.

Finger bridge (all phalanges).

TPR wrist reinforcement.

Padding on palm.

Thumb patch.

Impact foam reinforcement on top hand, cuff, palm, and fingers.

SP-9

LEATHER GLOVES

PRICE: \$ 219.99

Description

A universal riding glove bristling with racing DNA, the SP-9 Leather Glove is engineered for performance, on and off- the track. Constructed from highly abrasion resistant, full grain goat leather and synthetic leather material, its ultra-protective too thanks to its cutting edge MotoGP-derived SP-R divided knuckle. With a pre-shaped finger construction, Alpinestars patented finger bridge, long double closure cuff and a new anatomically profiled grip insert on the palm and thumb, this versatile glove ensures an optimized performance riding fit and high levels of movement and comfort.

Key Features

Streamlined, race design with racing-derived protective performance features that is also perfect for everyday use.

All-new SP-R TPU knuckle is optimized for finger flexibility and range of motion, avoiding pressure points when braking/changing gear, especially while cornering.

Perforated leather backhand for optimized airflow, with flexibility performance details for optimum rider comfort.

All-new pattern for a precise performance fit and minimum material bunching.

E-touch fingertips for ease of use with electronic devices.

Construction

Goat leather main construction for optimum blend of abrasion resistance, durability, and comfort.

Strategically positioned stretch fabric in flex zones for superior dexterity, comfort and freedom of movement.

Stretch fabric on fourchettes for additional flexibility and comfort.

2L stretch membrane construction on the palm zone around the thumb base for optimum flexibility, while also supporting grip comfort and reducing tension during clutch and brake use.

Accordian panels on the first two fingers for enhanced mobility, increasing dexterity when pulling the bike's levers.

Protection

SP-R TPU palm slider, palm and side hand overlay reinforcements, and finger impact reinforcements, for maximum abrasion resistance.

Long cuff with dual closure for a secure, personalized closure and extended coverage.

Street finger bridge prevents the pinky and ring finger from separating and twisting/dislocating in a crash, while also reinforcing the outer seam to reduce the risk of tearing during a slide.

Aramid fiber reinforcements on the finger bridge, and on palm slider for enhanced abrasion resistance in the key impact zones.

Multi-thickness foam area and EVA padding on the fingers, cuff, palm slider and knuckle area for proven impact absorption and enhanced comfort.

SP-2 V3

LEATHER GLOVES

PRICE: \$ 189.99

Description

A superbly styled and anatomically profiled glove for sports or naked bike enthusiasts the SP-2 v3 Glove has a full grain leather chassis incorporating multi-panel reinforcements for abrasion resistance and fit. The SP-2 v3 Glove also features a robust TPU compound knuckle guard to significantly ramp up its protective capabilities.

Construction

Constructed from a supple and highly durable full-grain leather chassis to provide core abrasion resistance and durability.

Palm and finger sidewalls are reinforced with supple goat's leather for feel and performance fit.

Main shell reinforcement is provided by leather coverage over first and second fingers and cuff.

Synthetic suede reinforcements on palm and landing zones for maximum abrasion resistance.

Ergonomic, advanced compound and MotoGP-derived TPU slider on palm is backed with EVA foam for impact performance.

Alpinestars robust yet flexible compound knuckle guard provides exceptional impact and abrasion protection.

Strategically positioned impact absorbing EVA foam for additional impact performance.

SP-8 V3 AIR

LEATHER GLOVES

PRICE: \$ 159.99

Description

A universal riding glove bristling with racing DNA, the SP-8 Air Leather Glove is constructed from strategically perforated full grain goat leather and synthetic leather with a 3D mesh top hand for high levels of cooling airflow; perfect for warm weather riding. The SP-8 Air Leather Glove delivers high levels of protection thanks to its advanced MotoGP-derived SP dual density floating knuckle. With a pre-shaped finger construction, a hook and loop cuff closure and a new anatomically profiled grip insert on palm and thumb, this glove affords a secure and highly personalized performance riding fit and high levels of movement and comfort.

Features

Premium, full-grain goat and synthetic leather construction is comfortable, durable and offers excellent abrasion resistance.

Extensive perforations and mesh paneling on top hand deliver exceptional levels of airflow and breathability.

Excellent repeated impact performance is offered by the advanced MotoGP-derived SP dual density floating knuckle protector.

Extended cuff for enhanced coverage with an integrated closure for security and ease of use.

An innovative microfiber and PU grip insert is strategically positioned on the palm and thumb for excellent levels of grip control and durability.

Alpinestars' exclusive ergonomic stretch insert between the palm and thumb offers an enhanced range of hand movement and greater sensitivity while operating the bike controls.

Alpinestars' patented third and fourth finger bridge prevents seam failure and finger separation in the event of a slide.

Perforated cuff and finger sidewalls for superior breathability and airflow.

Hook and loop cuff and wrist closure with an elasticized wrist design for secure, personalized fit.

Pre-shaped, anatomical finger design and half inner/half outer external seams for comfort and exceptional feel.

Touchscreen compatible fingertip on index finger and thumb for use with touchscreen devices.

New construction for reduced seams and enhanced rider comfort.

According to European statutory law the CE mark is a conformity requirement for the marketing of this product. The following standards apply to this product: EN 13594 2015, Level 1 KP.

SP-3

LEATHER GLOVES

PRICE: \$ 139.99

Description

Derived from Alpinestars involvement in top-level racing, the long cuff, SP-3 Gloves are packed with many race-inspired performance features. Accordion panels on the thumb and finger bridge enhance flexibility and control, while the pre-curved construction ensures a natural, ergonomic fit to reduce hand fatigue and improve freedom of movement. Constructed from full goat leather with padded reinforcements, these gloves deliver exceptional durability and abrasion resistance, ensuring lasting comfort and protection for the road.

Key Features

With their long cuff design and dual closure system that includes a cuff adjuster and wrist strap, the SP-3 Gloves provide extended coverage and a secure fit, minimizing the risk of slippage or displacement during intense riding sessions.

Featuring grip inserts on the thumb and palm, the SP-3 Gloves offer enhanced grip and control, even in challenging riding conditions.

Construction

Full leather construction for optimal durability and abrasion resistance.

Accordion panels on the thumb and finger bridge for enhanced flexibility.

Equipped with a cuff adjuster and wrist strap closure for a secure and customized fit.

Grip inserts on the thumb and palm enhance control and grip during rides.

Touchscreen compatible E-touch tip on the index finger for convenience without compromising safety.

Inner seam-resistant construction on the fingers ensures a comfortable and distraction-free riding experience.

An integrated pull tab on the gloves makes it easier to put on and take off the gloves, even in challenging conditions.

JET ROAD GORE-TEX

GLOVES

PRICE: \$ 249.99

Description

A premium adventure touring glove that features an updated design for a more streamlined fit, the Jet Road V2 features a premium GORE-TEX waterproof and breathable membrane plus PrimaLoft® lining for excellent thermal properties. Incorporating class-leading material engineering and technical innovation, this CE-certified touring glove has a hard polymer knuckle for class-leading protection.

Construction

Multi-panel full premium leather glove that is anatomically engineered for improved fit and comfort.

High grade goat skin on palm and thumb, and details on backhand, combined with stretch polyamide fabric and softshell on the backhand.

Waterproof and breathable GORE GRIP Technology membrane from GORE-TEX, which features a special layered construction promoting optimum tactility and better dexterity for improved grip.

Stretch fourchettes and sidewall and leather accordions on finger tips increase flexibility and fit while allowing for an extended range of hand movement.

Protection

CE-certified (CAT II Level 1).

PU coated reinforcement zones on thumb and palm for durability.

Synthetic leather reinforcements with foam padding on the palm and outer hand landing zone provide abrasion resistance on key impact zones.

Reinforcements consisting of aramid fiber and polyamide for abrasion resistance performance for fourth finger.

Primaloft insulation for excellent warmth-to-weight ratio. The material's advanced ultra-light fibers trap heat while insulating against cold and are water-resistant for improved thermal performance.

Key Features

Integrated padding on fingers for fit and comfort.

Reflective piping on backhand and fingers make the rider more visible to other road users.

Touch screen compatible fingertips for use with smart devices such as mobile phones and sat navs.

PU knuckle protection offers class-leading protection without impeding hand flex or movement.

Ergonomic stretch insert between thumb and palm offers flexibility to vastly improve hand movement.

Alpinestars patented third and fourth finger-bridge prevents contortion and separation of the fingers in the event of impact slide.

Long cuff design for extended coverage and to form hermetic seal with jacket.

SP-365 DRYSTAR® GLOVES

PRICE: \$ 179.99

Description

The SP-365 Drystar® Glove is a performance riding glove packed with protective features such as Alpinestars new SP knuckle protector. Featuring Alpinestars 100% Waterproof and breathable Drystar® performance technology for effective all-weather protection and a reduced material design offering superior sensitivity on the bike's controls.

Construction

Constructed from a supple and highly durable PU and softshell chassis to provide core abrasion resistance and durability.

Constructed with Alpinestars 100 per cent waterproof Drystar® performance membrane construction technology (palm only), thereby affording a highly reduced material chassis to promote dexterity and sensitivity of bike controls.

Made with PFAS chemicals

Protection

According to European statutory law the CE mark is a conformity requirement for the marketing of this product. The following standards apply to this product:

EN 13594 2015, Level 1 KP.

Key Features

Leather on palm for superior abrasion resistance in a key area.

Advanced poly-textile reinforcements on palm and thumb provides superior grip on bike's controls.

Synthetic leather reinforced outer hand with padding on landing zones provide maximum abrasion resistance.

Alpinestars developed ergonomic stretch insert between thumb and palm offers flexibility to vastly improve hand movement.

Durable new flexible Alpinestars SP knuckle protection provides class-leading impact and abrasion protection, and incorporates heat stamped logo.

Palm, fingers and backhand padded with energy absorbing EVA foam for improved comfort and fit.

Adjustable double hook and loop closure on cuff and wrist keeps glove safely and securely in position.

Touchscreen compatible fingertip area on index for use with smartphones and GPS systems.

Finger-bridge prevents excessive finger roll and separation during impacts.

Printed logos for weight-saving and material integrity.

BOGOTA' DRYSTAR® XF

GLOVES

PRICE: \$ 179.99

Description

The full length Bogota Drystar XF® Gloves are engineered to deliver enhanced feel and sensitivity with the bike's controls while providing a high level of protection, stretch and flexibility. These gloves are equipped with Alpinestars Drystar XF® membrane for superior breathability and waterproof performance, 80g PrimaLoft® Silver insulation for exceptional warmth retention in cold conditions, and an over-injected knuckle for effective impact protection.

1. DrystarXF® construction for optimum waterproof performance and superior breathability.
2. Innovative over-injected seamless knuckle protection delivers a high level of abrasion resistance and impact protection.
3. Integrated ultra-slim closure flap with a wrist strap for a secure closure.
4. softshell backhand construction for enhanced comfort and fit.

Protection

According to European statutory law the CE mark is a conformity requirement for the marketing of this product. The following standards apply: Fully CE certified motorcycling product: CE Level 1 KP.

Key Features

Reinforced synthetic suede palm for enhanced durability with an ergonomic pattern for optimum feel and flexibility.

Goat leather on digits for the optimum blend of comfort, durability and abrasion resistance.

Seamless over-injected knuckle protection ensures minimal seams and unrivaled coverage for optimized rider comfort.

The over-injected knuckle delivers impact protection while ensuring a high level of flexibility and allowing freedom of hand movements.

Technical stretch inserts for an optimized fit and enhanced comfort.

Palm stretch insert and seamless wrist closure for additional comfort in key zones.

Alpinestars finger bridge limits finger roll and prevents separation in the event of a crash.

Touchscreen compatible thumb and index finger.

WT-4 GORE-TEX® INSULATED GLOVES

PRICE: \$ 169.99

Description

Specifically optimized to deliver exceptional all-weather touring comfort, the mid-length WT-4 GORE-TEX Glove is equipped with a GORE-TEX construction for premium waterproofing and high levels of breathability, and features lightweight, breathable PrimaLoft® SILVER Insulation Active on the backhand that repels moisture while delivering superior performance for cold-weather riding.

Key Features

GORE-TEX construction for exceptional wet weather performance.

Equipped with GORE GRIP for superior sensitivity and feeling with the bike's handlebars.

80g PrimaLoft® Silver Insulation Active for warmth, enables excess heat and moisture to escape, keeping riders comfortable and dry in cold conditions.

Mid cuff design is engineered to be worn over or under the sleeve for warmth and rider comfort.

Stretch textile top hand construction with strategically placed flex panels for optimized comfort and a precision fit.

Construction

GORE-TEX construction delivers superior wet weather performance, with leather palm and side walls for added abrasion resistance.

Equipped with GORE GRIP for superior sensitivity and feeling with the bike's controls.

80g PrimaLoft® Silver Insulation Active keeps riders warm and dry in cold weather.

The mid cuff design is crafted to be worn either over or under the sleeve, providing warmth and enhancing rider comfort.

Stretch textile top hand construction that incorporates strategically placed flex panels to offer optimal riding comfort and a precise fit.

Pre-curved fingers with expansion panels deliver enhanced flexibility while also helping reduce fatigue on long rides.

Pinched fingertip design reduces the number of seams for high levels of comfort.

Boxed thumb design for rider comfort.

Conductive synthetic leather insert on thumb and index finger for touchscreen compatibility.

Silicone grip details on the cuff for ease of use.

Made with PFAS chemicals

Protection

Leather palm and side walls for superior abrasion resistance, with a rubber palm grip patch for a precise feel and enhanced durability.

Textile covered SP knuckle for proven impact protection.

Internal palm padding is strategically positioned on the landing zone for additional critical impact coverage.

Strategically positioned impact padding on the fingers and thumb for additional coverage in a critical area.

According to European statutory law the CE mark is a conformity requirement for the marketing of this product. The following standards apply:

HYDE XT DRYSTAR® XF

GLOVES

PRICE: \$ 149.99

Description

The mid-length Hyde XT Drystar®XF Gloves are engineered to deliver enhanced feel and sensitivity with the bike's controls while providing a high level of protection, stretch and flexibility. These gloves are equipped with Alpinestars Drystar®XF membrane for superior breathability and waterproof performance, and an ergonomic viscoelastic knuckle for effective impact protection.

1. Modular Laminated Drystar®XF membrane provides superior breathability. This membrane incorporates hydrophilic technology where water vapor is absorbed from the body and desorbed on the outside to provide 100% waterproof performance, and is easily packable and fast drying. 2. Extended shape knuckle offers greater coverage and protection of the knuckle area. 3. Integrated ultra-slim closure flap with a wrist strap for a secure closure.

Construction

Reinforced stretch main construction with stretch fabric for enhanced comfort and fit.

Reinforced synthetic suede palm for enhanced durability with an ergonomic pattern for optimum feel and flexibility.

Protection

According to European statutory law the CE mark is a conformity requirement for the marketing of this product. The following standards apply: Fully CE certified motorcycling product: CE Level 1 KP.

Key Features

Goat leather on digits for the optimum blend of comfort, durability and abrasion resistance.

Covered viscoelastic knuckle protection offers unrivaled coverage.

Technical stretch inserts for an optimized fit and enhanced comfort.

Palm stretch insert and seamless wrist closure for additional comfort in key zones.

Alpinestars finger bridge limits finger roll and prevents separation in the event of a crash.

Touchscreen compatible thumb and index finger.

WT-1 DRYSTAR® INSULATED GLOVES

PRICE: \$ 99.99

Description

Optimized for daily commuting in all weather conditions, the Stella WT-1 Drystar® Insulated Gloves feature a long cuff design and advanced Drystar® membrane for premium waterproofing and breathability. With 100g insulation, these gloves provide excellent warmth and comfort, making them the ideal choice for cold-weather rides.

Key Features

All-Weather Performance: Constructed with Alpinestars' 100% Drystar® performance membrane for proven wet-weather performance and superior breathability.

Insulated Warmth: 100g insulation keeps hands warm while allowing excess heat and moisture to escape, maintaining rider comfort in colder temperatures.

Ergonomic Design: Soft PU knuckles flex naturally with finger movements for optimal on-the-bike control and added impact protection.

Rider Comfort: The versatile, mid-length cuffed gloves can be worn over or under sleeves for personalized warmth and comfort.

Touchscreen Compatibility: Conductive fingertips allow easy use of smartphones and other devices without removing the gloves.

Construction

Anatomically optimized for a woman's specific fit.

Constructed with a mixed textile back hand for softness and protection.

The soft suede palm, with overlay reinforcement, provides superior grip, enhanced abrasion resistance, and long-lasting durability.

The newly integrated, ergonomic soft PU knuckle delivers added protection while allowing natural movement of the fingers.

Easy and fast closure for a customized fit.

Protection

Ergonomic soft PU exposed knuckle for proven impact and abrasion protection.

According to European statutory law, the CE mark is a conformity requirement for the marketing of this product. The following standards apply:
